Map 2. Patterns of Regional Security Post-Cold War

REGIONAL SECURITY COMPLEX ES

Great Lakes Region

 Uganda, Burundi, Rwanda, Tanzania, DRC (Malawi, Kenya and Mozambique).

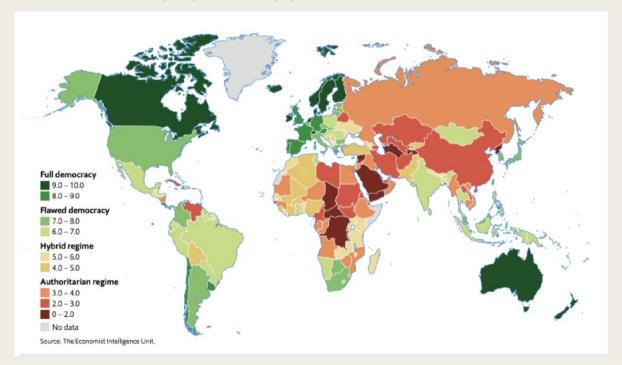

Facts about GLR

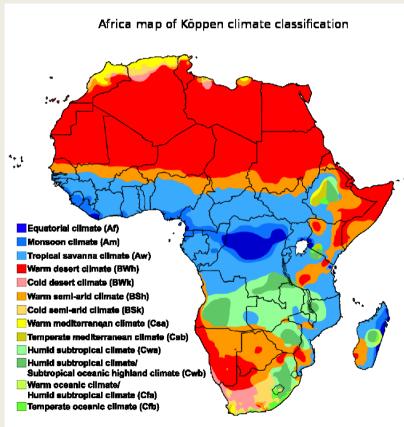

Around 230 million inhabitants

 Geography - African Great Lakes - Victoria and Tanganyika, Mount Kilimanjaro (4,900 metres), high concentrations of wild animals (big five), Rwenzoris,

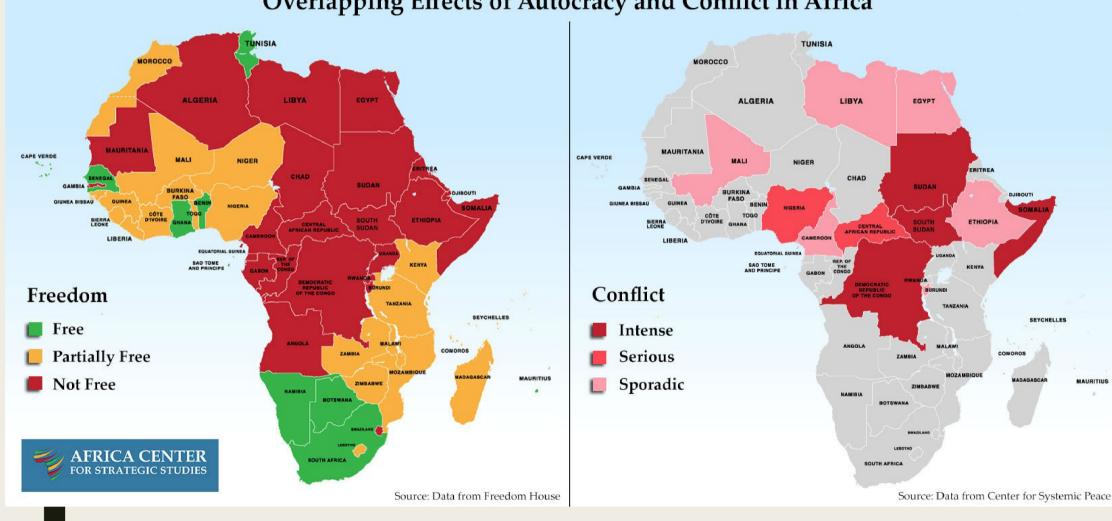

Eastern Rift Mountains and Ethiopian Highlands.

FSI (FFP) – Burundi (20), Uganda (26), Rwanda (44),
 Tanzania (65), DRC (4).

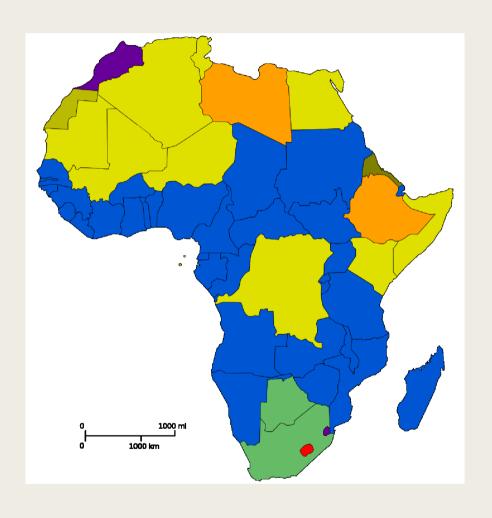

Overlapping Effects of Autocracy and Conflict in Africa

EA – Form of Government

Uganda

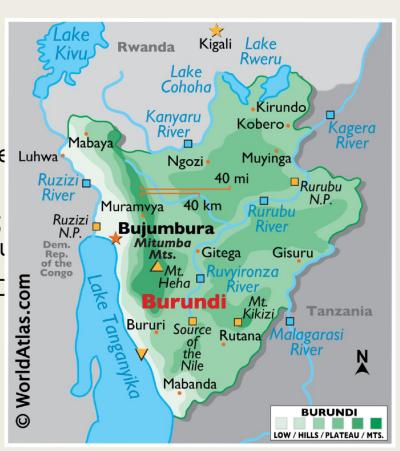

- 47 mil inhabitants, Protestant 45.1%, Roman Catholic 39.3%, Muslim 13.7%
- Independence 1962
- Apollo Milton Obote x Idi Amin
- Kagera war
- Civil war 1980-1986 (Bush war)
- Lord's Resistance Army
- Involvement in the first
 and second civil wars in the DRC

| GROUP | % | GROUP | % |
|-------------|------|---------------|------|
| Baganda | 16.2 | Bagisu | 5.1 |
| Iteso | 8.1 | Acholi | 4.4 |
| Basoga | 7.7 | Lugbara | 3.6 |
| Banyankore | 8.0 | Banyoro | 2.9 |
| Banyaruanda | 5.8 | Batoro | 3.2 |
| Bakiga | 7.1 | Karamojong | 2.0 |
| Lango | 5.6 | Others (est.) | 20.3 |

Burundi

- 12 mil inhabintants, Roman Catholic 62.1%, Protestant 23.9%, Muslim 2.5%
- Ruanda-Urundi 1919-1962
- Independence 1962
- UPRONA Union for National Progress
- Civil war 1993-2005/08
- National Council for the Defense of Democracy—Force Luhwafor the Defense of Democracy (CNDD-FDD).
- Crisis 2015 Pierre Nkurunziza x general Niyombare;
 Popular Forces of Burundi, RED-Tabara x Imbonerakı
- 2020 new president Évariste Ndayishimiye (CNDD-FI
- Gitega (New capital city)

Bujumbura vs. Gitega

Rwanda

- 13 mil inhabitants, Protestant 49.5%, Roman Catholic 43.7%, Muslim 2%
- Independence 1962, MDR-Parmehutu
- The National Revolutionary Movement for Development (MRND) was the ruling political party of Rwanda from 1975 to 1994 under President Juvénal Habyariman
- Civil war 1990-1994 (RPF Rwandan Patriotic Front)
- Genocide 1994 (Interahamwe, Impuzamugambi x Inkotanyi)
- Involvement in the first and second civil wars in the DRC

Tanzania

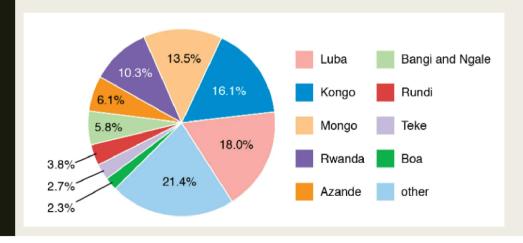

- 64 mil inhabitants, Christian 61.4%, Muslim 35.2%
- Creation of Tanzania 1964
- Kagera war 1978-1979
- New capital city Dodoma

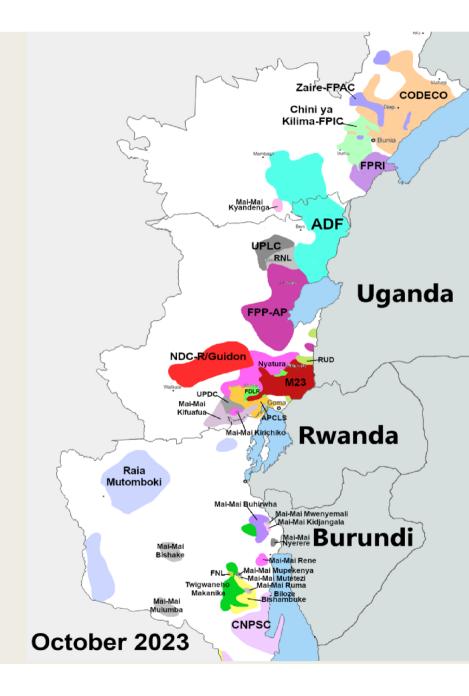

DRC

- 96 108? mil inhabitants, Christians constituted 93.7%
- Independence 1960
- First civil war 1996-1997
- Second civil war 1998-2003
- Alliance of Democratic Forces for the Liberation of Congo-Zaire (AFDLC)
- M23, Mai-Mai, CODECO
- Félix Tshisekedi

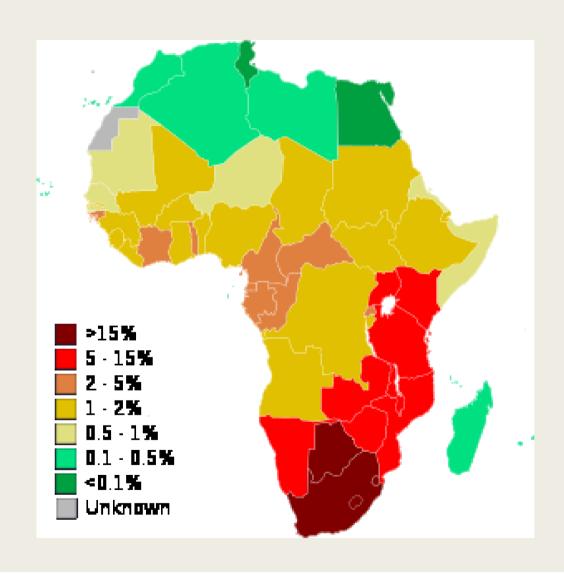

DRC - Division between VNSAs

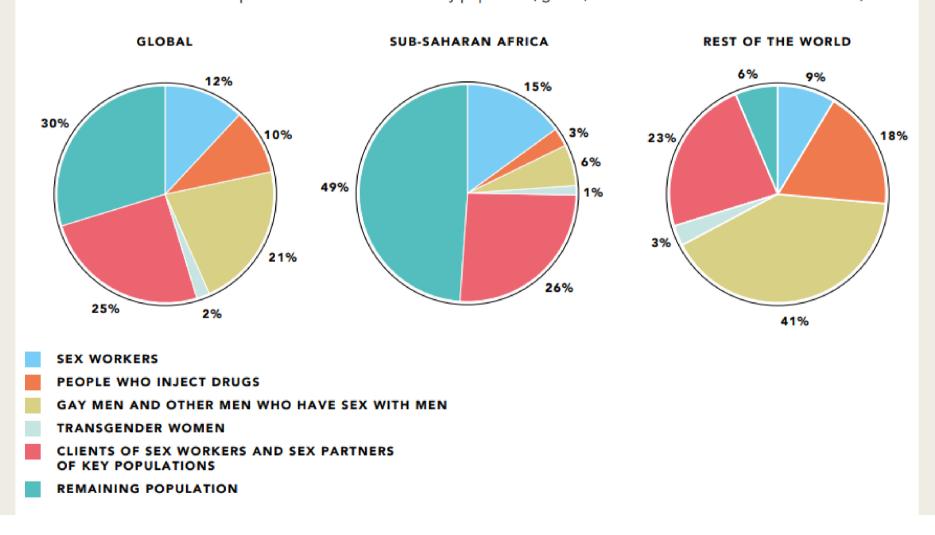

HIV in Africa

| State | % in the population |
|--------------|---------------------|
| Eswatini | 26% |
| Botswana | 23,4% |
| South Africa | 17% |
| Tanzania | <mark>5%</mark> |
| Rwanda | <mark>3%</mark> |
| Burundi | <mark>3%</mark> |
| Uganda | <mark>7%</mark> |

HIV/AIDS

FIGURE 0.8 Distribution of acquisition of new HIV infections by population, global, sub-Saharan Africa and rest of the world, 2021

HIV in Africa

- Bushmeat theory Cameroon.
- 71% of the total HIV population lives in Sub-Africa.
- Desmond Tutu HIV Foundation .
- UNAIDS Joint United Nations Programme on HIV/AIDS.
- Causes of expansion in Africa: behavioral factors, lack of money, natural disasters and conflicts, health industry, medical suspicion, circumcision?, religious factors, educational level, poverty.
- Uganda AIDS Information Centers

HIV in Africa

Justus Amuche Nweze - HIV/AIDS in sub-Saharan Africa: Current status, challenges and prospects.

Reasons for the high prevalence of HIV/AIDS in sub-Saharan Africa:

- a) The initial responses to HIV in Africa and the West
- b) Cultural behaviors and beliefs (Widow inheritance, Postpartum sexual abstinence, Sexual cleansing, Virgin cleansing fable, Ritualised non-marital sexual intercourse)
- c) Multiple sexual partners
- d) Poverty, conflict/war, migration, and HIV/AIDS
- e) Blood transfusion and HIV
- f) HIV/AIDS-associated stigma and discrimination

Food Security - Definition

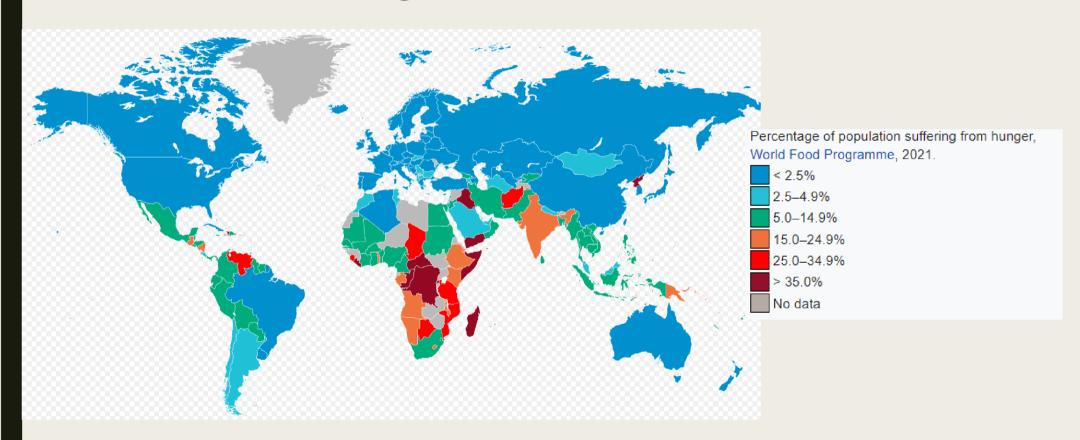

- "Food security exists when all people, at all times, have physical and economic access to sufficient safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life." 1996 World Food Summit.
- "Food insecurity, on the other hand, is defined by the United States Department of Agriculture (USDA) as a situation of "limited or uncertain availability of nutritionally adequate and safe foods or limited or uncertain ability to acquire acceptable foods in socially acceptable ways."
- 4 Dimensions + 2 new dimensions (Agency and Sustainability).

From this definition, four main dimensions of food security can be identified:

| Physical AVAILABILITY of food | Food availability addresses the "supply side" of food security and is determined by the level of food production, stock levels and net trade. |
|---|--|
| Economic and physical ACCESS to food | An adequate supply of food at the national or international level does not in itself guarantee household level food security. Concerns about insufficient food access have resulted in a greater policy focus on incomes, expenditure, markets and prices in achieving food security objectives. |
| Food UTILIZATION | Utilization is commonly understood as the way the body makes the most of various nutrients in the food. Sufficient energy and nutrient intake by individuals is the result of good care and feeding practices, food preparation, diversity of the diet and intra-household distribution of food. Combined with good biological utilization of food consumed, this determines the <i>nutritional status</i> of individuals. |
| STABILITY of the other three dimensions over time | Even if your food intake is adequate today, you are still considered to be food insecure if you have inadequate access to food on a periodic basis, risking a deterioration of your nutritional status. Adverse weather conditions, political instability, or economic factors (unemployment, rising food prices) may have an impact on your food security status. |

For food security objectives to be realized, all four dimensions must be fulfilled simultaneously.

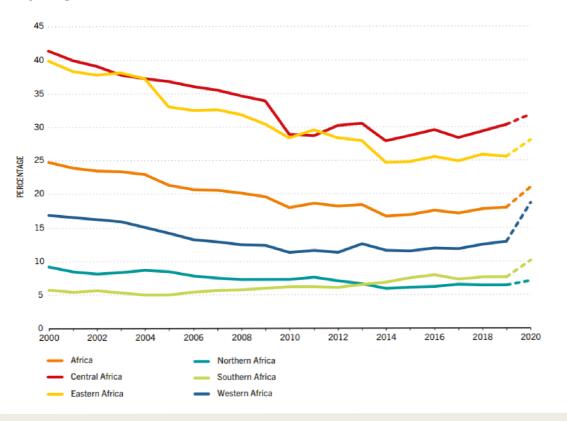

Hunger in the World

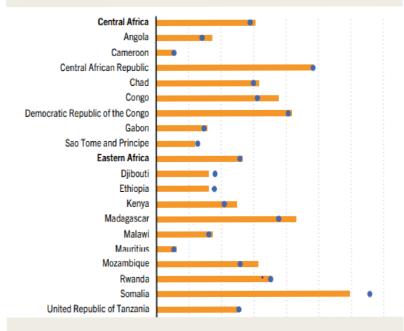

- 281.6 million people in Africa face hunger (2021).
- Food security situation is determined by several drivers including conflicts, climate variability and extremes, economic slowdowns and downturns, and the unaffordability of healthy diets.
- Food and Agriculture Organization of the United Nations, FAO (1945).
- The biggest deterioration occurred between 2019 and 2020.
- 125.1 million people live in Eastern Africa, followed by Western Africa (75.2 million), Central Africa (57.1 million), Northern Africa (17.4 million) and Southern Africa (6.8 million).

| ABLE 1 revalence of undernourishment (perce | ent) | | | | | |
|---|-------|------|------|------|------|------|
| | 2000 | 2010 | 2014 | 2015 | 2019 | 2020 |
| World | 13.0 | 9.2 | 8.3 | 8.3 | 8.4 | 9.9 |
| Africa | 24.8 | 18.0 | 16.7 | 16.9 | 18.0 | 21.0 |
| Central Africa | 41.4 | 28.9 | 27.9 | 28.7 | 30.3 | 31.8 |
| Eastern Africa | 39.9 | 28.4 | 24.7 | 24.8 | 25.6 | 28.1 |
| Northern Africa | 9.2 . | 7.3 | 5.9 | 6.1 | 6.4 | 7.1 |
| Southern Africa | 5.8 | 6.2 | 6.8 | 7.5 | 7.6 | 10.1 |
| Western Africa | 16.9 | 11.3 | 11.6 | 11.5 | 12.9 | 18.7 |

FIGURE 2
Prevalence of undernourishment in Africa by subregion

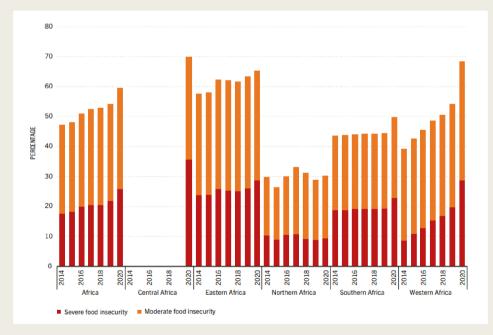

Shared vision of humanity and a social contract between the world's leaders.

- The Food Insecurity Experience Scale (FIES):
- a) Moderate food insecurity (uncertain ability to obtain food and have been forced to reduce, at times over the year, the quality and/or quantity of food they consume due to lack of money or other resources.
- b) Severe food insecurity (run out of food, experienced hunger and, at the most extreme, have gone for days without eating)

- Food security and nutrition indicators:
- a) Undernourishment
- b) Food Insecurity Experience Scale
- c) Stunting, wasting and overweight in children under five years of age
- d) Low birthweight
- e) Adult obesity
- f) Anaemia in women of reproductive age
- g) Exclusive breastfeeding

Global Hunger Index

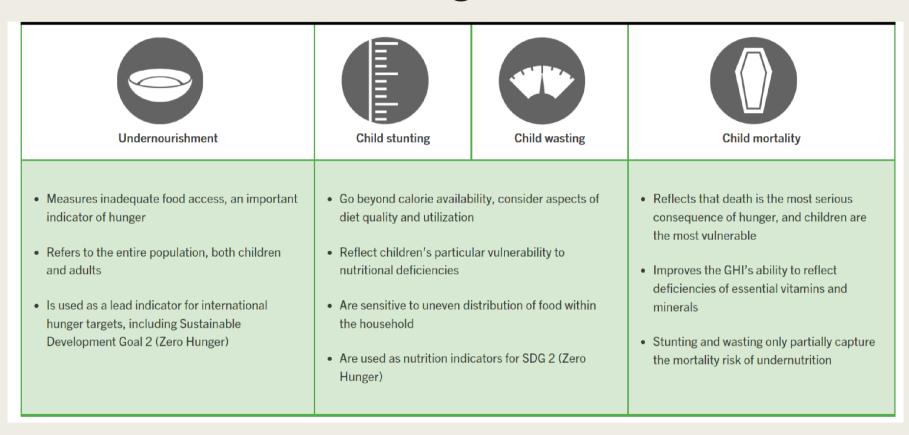

- Around 20% of people in Africa are facing chronic hunger, compared with only 10% globally.
- Russia's war on Ukraine has exacerbated food supply problems, while climate change and the pandemic have also contributed.
