

ENVIRONMENTAL IMPACT ASSESSMENT

Ilona Jancarova

ENVIRONMENTAL IMPACT ASSESSMENT

EIA - procedure enabling the assessment of all the impacts the proposed activity might have on the environment

Goal - to embody the environmental protection to development programs and projects and to incorporate the environmental aspects to decision-making processes

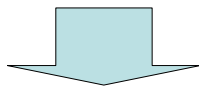

ENVIRONMENTAL IMPACT ASSESSMENT (EIA)

- 1969** National Environmental Policy Act (USA)
- 1985** Council Directive 85/337/EEC on the assessment of the effects of certain public and private projects on the environment
- 1991** Convention on environmental impact assessment in a transboundary context (Espoo)
- 1997** Directive 97/11/EC amending Directive 85/337/EEC
- 2001** Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment
- 2003** Protocol to Espoo convention on the strategic environmental impact assessment (Kijev)

Czech law

- Act No. 100/2001 Coll. on the environmental impact assessment, as amended
- Act No. 114/1992 Coll. on the Nature Protection, as amended
- Act No. 183/2006 Coll., Construction Code, as amended

Aspects of the EIA procedure

1) Delimitation of activities:

- projects
 - plans, programmes and policies
 - changes of projects and plans

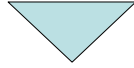

Aspects of the EIA procedure

2) Timeliness:

- Land-use planning
- EIA procedure
- Development consent
- Construction permit
- Permit to use

Aspects of the EIA procedure

3) Complexity

- any direct and indirect effect caused by the proposed activity on flora, fauna, soil, water, air, climate, landscape and historical monuments must be explored including interactions among these factors
- „cradle to grave“ assessment

Aspects of the EIA procedure

4) Two-steps procedure to ensure the quality of the outcome:

- notification
- screening and scoping procedure
- documentation
- review of the documentation
- environmental impact statement

Aspects of the EIA procedure

5) Participation of experts

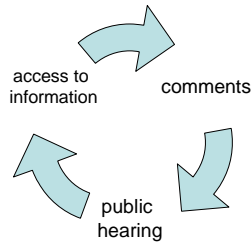

- authorized persons

- ad hoc commission

Aspects of the EIA procedure

6/ Participation of the public

EIA STEPS

- Announcement
- Screening and scoping procedure
- Documentation
- Review of the documentation
- Public discussion
- Environmental impact statement

REALIZATION OF THE PROJECT - PHASES

- Compliance with the land-use planning documentation
- Environmental impact statement
- Approval to use the agricultural/forest land for different purposes
- Development consent based on approvals/ opinions issued by environmental authorities (nature protection authority, air and water protection authorities etc.)
- Building/construction permit including IPPC/approvals of individual env. authorities
- Permit to operate
