

Heracleum persicum (Persian hogweed)

INVASIVE ALIEN SPECIES

Ilona Jančářová

ALIEN x INVASIVE

Alien species are plants, animals, fungi and microorganisms that have been transported **across ecological barriers** such as mountain ranges, or oceans as a human intervention, and have become established in an area outside their natural range.

Invasive alien species means “an alien species whose introduction or spread has been found to **threaten or adversely impact upon biodiversity** and related ecosystem services”.

EUCALYPTUS GRANDIS AND PORTUGUESE EXPERIENCE

EU LEGISLATION

- Regulation **1143/2014** on the prevention and management of the introduction and spread of invasive alien species
 - List of Invasive Alien Species of Union concern (implementing regulation (EU) **2016/1141**)
 - 37 species
 - The first update of the list entered into force on **2.8.2017**
 - 49 species

Eriocheir sinensis (Chinese mitten crab)

Myocastor coypus (Coypu)

Nyctereutes procyonoides (Raccoon dog)

Ondatra zibethicus (Muskrat)

Orconectes limosus (Spiny-cheek crayfish)

Pacifastacus leniusculus
(Signal crayfish)

Procambarus fallax f. virginalis
(M. H. Smith, 1911)

Procyon lotor (Raccoon)

Pseudorasbora parva (Stone moroko)

Trachemys scripta (Red-eared, yellow-bellied and Cumberland sliders)

Sciurus niger (Fox squirrel)

CURRENT DRAFT FOR INCLUSION ON THE LIST

Ailanthus altissima (**Pajasan žláznatý**)

CURRENT DRAFT FOR INCLUSION ON THE LIST

Ameiurus nebulosus(Sumeček americký)

Norek americký (*Mustela vison*,
Neovison vison)

WHERE TO FIND?

- List of invasive alien species of **Union concern** based on criteria laid down in Art. 4 of the Directive
- National list of invasive alien species of **Member State concern**, pursuant to Article 12(1)
- Invasive alien species of **regional concern**

WHAT A MAN HAVE TO DO WITH INVASIVE ALIEN SPECIES?

Preventive restrictions (Art. 7):

- do not bring it into the territory of the EU
 - do not keep it
 - do not breed it
 - do not transport it within the EU
 - do not place it on the market
 - do not use it or exchange it
 - do not permit it to reproduce or cultivate
 - do not release it into the environment
- Prevention of **unintentional** introduction or spread ➡ EU MS

intentionally

WHAT A MAN HAVE TO DO WITH INVASIVE ALIEN SPECIES?

No direct duties for individuals regarding to

- Detection, surveillance
- Emergency measures
- Eradication
- Restoration of damaged ecosystems

EU MS are in charge!

- duty to establish and implement **national action plans** to address priority pathways

CONCLUSIONS

- Regulation 1143/2014 contains rules characteristic for a Directive
 - Preventive duties imposed on individuals are related just to species on the list of invasive alien species of Union concern

- Implementing legislation on national level is necessary

Thank you for your attention.

PRACTICAL APPLICATION

- Za rok platnosti příslušného prováděcího nařízení bylo na PVS na ruzynském letišti zkontolováno celkem 583 zásilek zvířat ze třetích zemí. V rámci odbavení zásilek byla kontrolována i přítomnost invazních druhů. Kromě jedné zásilky obsahující 75 ks raka červeného z Indonésie z loňského srpna nedošlo ke zjištění žádného dalšího dovozu invazního druhu.
 - V případě, že pohraniční veterinární kontrola odhalí druhy, které jsou zařazeny na daném seznamu, nepropustí je do ČR, a tudíž ani do EU. Výjimka může být udělena pouze na základě speciálního povolení v souladu s platnou právní úpravou.
