

- |   |  |
|---|--|
| 1 laboratory and research microscope, <i>Leitz system</i>   | 41 zoom lens   |
| 2 stand   | 42 dust counter  |
| 3 base  | 43 measurement chamber   |
| 4 coarse adjustment   | 44 data output   |
| 5 fine adjustment   | 45 analogue ( <i>Am.</i> analog) output                                      |
| 6 illumination beam path (illumination path)  | 46 measurement range selector  |
| 7 illumination optics   | 47 digital display (digital readout)   |
| 8 condenser   | 48 dipping refractometer for examining food                                  |
| 9 microscope (microscopic, object) stage  | 49 microscopic photometer  |
| 10 mechanical stage   | 50 photometric light source  |
| 11 objective turret (revolving nosepiece)   | 51 measuring device (photomultiplier, multiplier phototube)                  |
| 12 binocular head   | 52 light source for survey illumination                                      |
| 13 beam-splitting prisms  | 53 remote electronics  |
| 14 transmitted-light microscope with camera and polarizer, <i>Zeiss system</i>                        | 54 universal wide-field microscope   |
| 15 stage base   | 55 adapter for camera or projector attachment                                |
| 16 aperture-stop slide  | 56 eyepiece focusing knob  |
| 17 universal stage  | 57 filter pick-up  |
| 18 lens panel   | 58 handrest  |
| 19 polarizing filter  | 59 lamphouse for incident (vertical) illumination                            |
| 20 camera   | 60 lamphouse connector for transillumination                                 |
| 21 focusing screen  | 61 wide-field stereomicroscope   |
| 22 discussion tube arrangement  | 62 interchangeable lenses (objectives)                                       |
| 23 wide-field metallurgical microscope, a reflected-light microscope (microscope for reflected light) | 63 incident (vertical) illumination (incident top lighting)                  |
| 24 matt screen (ground glass screen, projection screen)   | 64 fully automatic microscope camera, a camera with photomicro mount adapter |
| 25 large-format camera  | 65 film cassette   |
| 26 miniature camera   | 66 universal condenser for research microscope I                             |
| 27 base plate   | 67 universal-type measuring machine for photogrammetry (phototheodolite)     |
| 28 lamphouse  | 68 photogrammetric camera  |
| 29 mechanical stage   | 69 motor-driven level, a compensator level                                   |
| 30 objective turret (revolving nosepiece)   | 70 electro-optical distance-measuring instrument                             |
| 31 surgical microscope  | 71 stereometric camera   |
| 32 pillar stand   | 72 horizontal base   |
| 33 field illumination   | 73 one-second theodolite   |
| 34 photomicroscope  |  |
| 35 miniature film cassette  |  |
| 36 photomicrographic camera attachment for large-format or television camera                          |  |
| 37 surface-finish microscope  |  |
| 38 light section tube   |  |
| 39 rack and pinion  |  |
| 40 zoom stereomicroscope  |  |
