

PARAPHRASING

- saying something in an easier way
- plagiarism – copying something which is not yours
- quoting: “Diabetes is a serious disease.” (Helan 2012: 96)
- saying something differently

TECHNIQUES FOR PARAPHRASING

1. USING SYNONYMS

Research shows that the society is changing.

Studies demonstrate.....population...is different

Scientists found.....the people.....not the same

Experiments point to/proved...civilization...transforming.

2. USING DIFFERENT PARTS OF SPEECH

...society is changing...

... the social/societal change

3. USING DIFFERENT WORD ORDER/STRUCTURE

Smoking causes lung cancer.

Lung cancer is caused by smoking.
