That **brings me to the end of** my **presentation**. Let me just **run over** the **key** points again. Very briefly, there are three. First, socio-biology in contrast to ecology, **second** to economy, and **third** to political science. **From what you have heard**, there are some **very good** reasons to see socio-biology as any treatment of social phenomena that basically **draws** on neo-Darwinist theory. **At this point**, I'd like to leave you with the following **thought**: remember that politics, ecology, as well as economy are part of life, and biology is the study of life. **In my opinion**, the only possibility is to accept the **existence** of socio-biology as an equal to other social sciences. Thank you for **your attention** and now, if you have any questions, I'd **be pleased** to answer them.
