

**1. Write down the stems (= remove the genitive ending from the genitive form of the word)**

- |                         |                            |                       |
|-------------------------|----------------------------|-----------------------|
| • Abdomen, inis, n.     | • Dolor, oris, m.          | • Latus, eris, n.     |
| • _____                 | • _____                    | • _____               |
| • Abductor, oris, m.    | • Encephalitis, itidis, f. | • Lien, lienis, m.    |
| • _____                 | • _____                    | • _____               |
| • Amputatio, onis, f.   | • Excisio, onis, f.        | • Luxatio, onis, f.   |
| • _____                 | • _____                    | • _____               |
| • Apex, icis, m.        | • Extensor, oris, m.       | • Margo, inis, m.     |
| • _____                 | • _____                    | • _____               |
| • Articulatio, onis, f. | • Femur, oris, n.          | • Mater, tris, f.     |
| • _____                 | • _____                    | • _____               |
| • Caput, itis, n.       | • Flos, oris, m.           | • Melanoma, matis, n. |
| • _____                 | • _____                    | • _____               |
| • Carcinoma, matis, n.  | • Foramen, inis, n.        | • Occiput, itis, n.   |
| • _____                 | • _____                    | • _____               |
| • Cartilago, inis, f.   | • Hallux, ucis, m.         | • Oedema, matis, n.   |
| • _____                 | • _____                    | • _____               |
| • Cavitas, atis, f.     | • Hepar, atis, n.          | • Operatio, onis, f.  |
| • _____                 | • _____                    | • _____               |
| • Cervix, icis, f.      | • Iecur, oris, n.          | • Os, ossis, n.       |
| • _____                 | • _____                    | • _____               |
| • Commotio, onis, f.    | • Injectio, onis, f.       | • Os, oris, n.        |
| • _____                 | • _____                    | • _____               |
| • Cor, cordis, n.       | • Intentio, onis, f.       | • Pes, pedis, m.      |
| • _____                 | • _____                    | • _____               |
| • Corpus, oris, n.      | • Iris, idis, f.           | • Phalanx, gis, f.    |
| • _____                 | • _____                    | • _____               |
| • Cortex, icis, m.      | • Lac, lactis, n.          | • Pharynx, gis, m.    |
| • _____                 | • _____                    | • _____               |
| • Crus, is, n.          | • Larynx, ngis, m.         | • Pollex, cis, m.     |
| • _____                 | • _____                    | • _____               |

- |                     |                       |                     |
|---------------------|-----------------------|---------------------|
| • Pulmo, onis, m.   | • Solutio, onis, f.   | • Trauma, matis, n. |
| • _____             | • _____               | • _____             |
| • Radix, icis, f.   | • Soma, atis, n.      | • Tumor, oris, m.   |
| • _____             | • _____               | • _____             |
| • Regio, onis, f.   | • Sphincter, eris, m. | • Ulcus, eris, n.   |
| • _____             | • _____               | • _____             |
| • Ren, renis, f.    | • Stoma, matis, n.    | • Ureter, eris, m.  |
| • _____             | • _____               | • _____             |
| • Rotator, oris, m. | • Tendo, inis, m.     | • Vas, is, n.       |
| • _____             | • _____               | • _____             |
| • Sanatio, onis, f. | • Thorax, acis, m.    | • Vulnus, eris, n.  |
| • _____             | • _____               | • _____             |

**2. Change into plural:**

- |                        |                          |
|------------------------|--------------------------|
| <i>femur</i> : _____   | <i>apex</i> : _____      |
| <i>mater</i> : _____   | <i>caput</i> : _____     |
| <i>flos</i> : _____    | <i>melanoma</i> : _____  |
| <i>foramen</i> : _____ | <i>cartilago</i> : _____ |
| <i>oedema</i> : _____  | <i>injectio</i> : _____  |

**3. Connect nouns to name anatomical structures:**

**cavitas** + cranium, thorax, abdomen, larynx, nasus, os (oris), pharynx, uterus

---

**caput** + costa, femur, fibula, humerus, mandibula, phalanx, radius, ulna

---

**regio** + brachium, caput, carpus, cervix, coxa, crus, dorsum, femur, pes,

---

**corpus** + lingua, phalanx, sternum, talus, tibia, uterus, os metacarpi, os metatarsi, coccyx

---

*cervix + uterus, vesica urinaria*

**4. Assign the given adjectives to their respective nouns:**

<b>Tumor</b>	<i>punctus, a, um</i>	<i>longus, a, um</i>	<i>nutricius, a, um</i>
<b>Corpus</b>	<i>benignus, a, um</i>	<i>scissus, a, um</i>	
<b>Medicamentum</b>	<i>humanus, a, um</i>	<i>contusus, a, um</i>	<i>sacer, a, um</i>
<b>Pes</b>	<i>osseus, a, um</i>	<i>sclopetarius, a, um</i>	
<b>Os</b>	<i>malignus, a, um</i>	<i>obliquus, a, um</i>	<i>medius, a, um</i>
<b>Foramen</b>	<i>adiposus, a, um</i>	<i>sectus, a, um</i>	
<b>Diameter</b>	<i>dexter, a, um</i>	<i>alienus, a, um</i>	<i>novus, a, um</i>
<b>Vulnus</b>	<i>bonus, a, um</i>	<i>sinister, a, um</i>	

**5. Connect nouns with correct adjectives, change using the given word:**

**Ex:**

**a)** *dolor + magnus, a, um > dolor magnus*

**remedia contra ..... dolorem magnum**

**b)** *latus + sinister, a, um*

**vulnus in (6) ... \_\_\_\_\_**

**c)** *abdomen + acutus, a, um*

**operatio propter ... \_\_\_\_\_**

**d)** *musculus abductor + longus, a, um*

**ruptura ... \_\_\_\_\_**

**e)** *encephalitis + epidemicus, a, um*

**therapia ... \_\_\_\_\_**

f) amputatio + traumaticus, a, um g) luxatio + complicatus, a, um  
**status post ...** \_\_\_\_\_ **(pl.) ...** \_\_\_\_\_

h) musculus extensor + radiatus, a, um i) margo + liber, a, um  
**ruptura ...** \_\_\_\_\_ **polypus in (6) ...** \_\_\_\_\_

j) articulatio + planus, a, um k) femur + dexter, a, um  
**(pl.) ...** \_\_\_\_\_ **fractura ...** \_\_\_\_\_

**6. Read the text, give correct Latin equivalent to underlined words/phrases:**

The digestive **organs** (\_\_\_\_\_ digestoria) may be divided according to their **function** (secundum (4) (\_\_\_\_\_)) into the cephalic and those **of the trunk** (\_\_\_\_\_). The cephalic digestive organs include the **oral cavity** (\_\_\_\_\_ with its salivary **glands** (cum \_\_\_\_\_ salivariis), the oropharynx, and the hypopharynx. The digestive organs of the trunk include the **gullet** (\_\_\_\_\_), **stomach** (\_\_\_\_\_), **small bowel** (\_\_\_\_\_ tenue) including duodenum, jejunum and ileum, **large bowel** (\_\_\_\_\_ including **caecum** (\_\_\_\_\_), vermiform appendix, ascending colon, **transverse colon** (\_\_\_\_\_), descending colon, **sigmoid colon** (\_\_\_\_\_ and **rectum** (\_\_\_\_\_). Important are also the digestive glands – **liver** (\_\_\_\_\_ and **pancreas** (\_\_\_\_\_).

**a) Translate phrases learn useful words:**

- function of the digestive\* organs -----  
 (functio, onis, f.; digestorius, a, um)
- thorn\* wounds\* in the trunk of the body -----  
 (lacer, a, um; vulnus, eris, n.)
- foreign\* body in the oral cavity -----  
 (alienus, a, um)

• *function of the salivary\* glands* -----

*(salivarius, a, um)*

• *serous tunic of the gullet* -----

• *walls\* of the stomach* -----

*(paries, etis, m.)*

• *the body of the stomach* -----

• *ulcers\* in the body of the stomach* -----

*(ulcus, eris, n.)*

• *perforated intestines* -----

• *surgical therapy of the perforated intestines* -----

• *symptoms of the intestine perforation\** -----

*(perforatio, onis, f.)*

• *cancer of the sigmoid colon* -----

• *right and left lobe of the liver* -----

• *tumor of the head of the pancreas* -----

• *body and neck of the pancreas* -----
