

# TUTORIAL IN BASIC MEDICAL TERMINOLOGY

## PROGRESS TEST 1

MOCK TEST

Name:	Date:
-------	-------

**1) Fill in the chart (12,5 points)**

Nominative	Full genitive	Gender	Stem	Paradigm word	English translation
	APICIS				
MYOMA					
	DIAMETRI				
DYSPNOE					
	COLLI				

**2) Match the nouns with adjectives in the brackets and form nominative singular, genitive singular, nominative plural and genitive plural (in this given order). (17,5points)**

**Example: fractura (apertus) – fractura aperta, fracturae apertae, fracturae apertae, fracturarum apertarum**

Ganglion (thoracicus)

---

Tumor (benignus)

---

musculus (rectus)

---

Ligamentum (transversus)

---

Febris (continuus)

---

**3) Form grammatically correct terms. Do not change the word order.** (17 points)

Fractura – femur – cum – laesio – arteria (pl.):

---

Medicamentum (pl.) – contra – dolor

---

Antibioticum (pl.) – contra – pertussis:

---

Extractio (pl.) – dens (pl.) – incisivus:

---

Laesio – pulmo (pl.) – traumaticus – cum – perforatio – diaphragma:

---

Hernia – diaphragma – congenitus – cum – dyspnoe:

---

**3) Translate into Latin.** (20 points)

• foreign bodies in shot wounds

---

• rupture of the arteries of brain

---

• complicated fracture of the body of the first left true rib

---

• symptoms of an acute inflammation of kidneys

---

• remedies for children and adults against whooping cough

---

**POINTS: 70, PASS MARK 70% -> 49POINTS**

**TUTORIAL IN BASIC MEDICAL TERMINOLOGY  
PROGRESS TEST 1**

MOCK TEST

Name:	Date:
-------	-------

**1) Fill in the chart** (12,5 points)
