Match nouns with appropriate adjectives and form genitive singular

- plexus variarius, a, um
 - genus frontalis, e
 - facies brachialis, e
 - manus sinister, tra, trum
 - cornu cutaneus, a, um
- plexus brachialis
 - genus vari
 - faciei cutaneae
 - manus sinistrae
 - cornus frontalis
- 

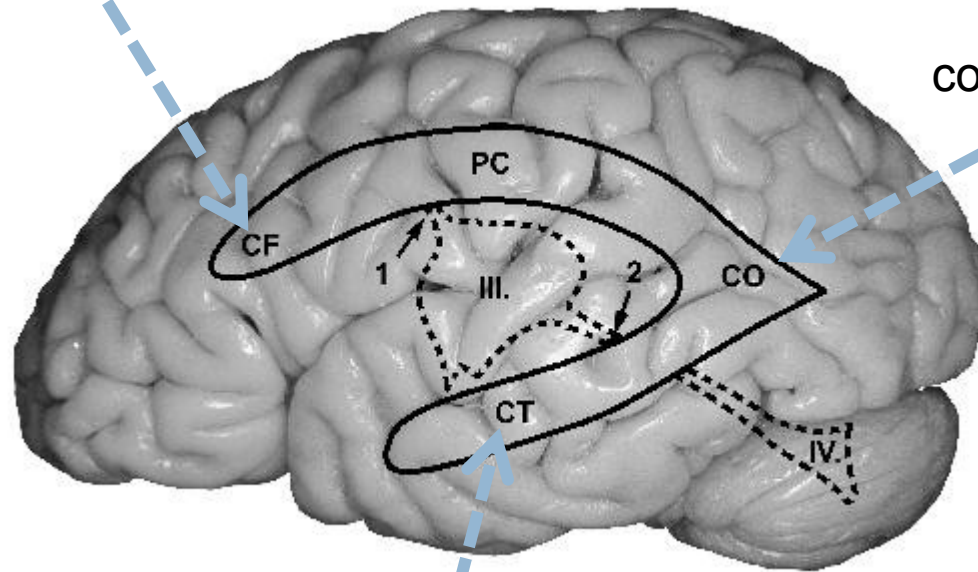

genua valga

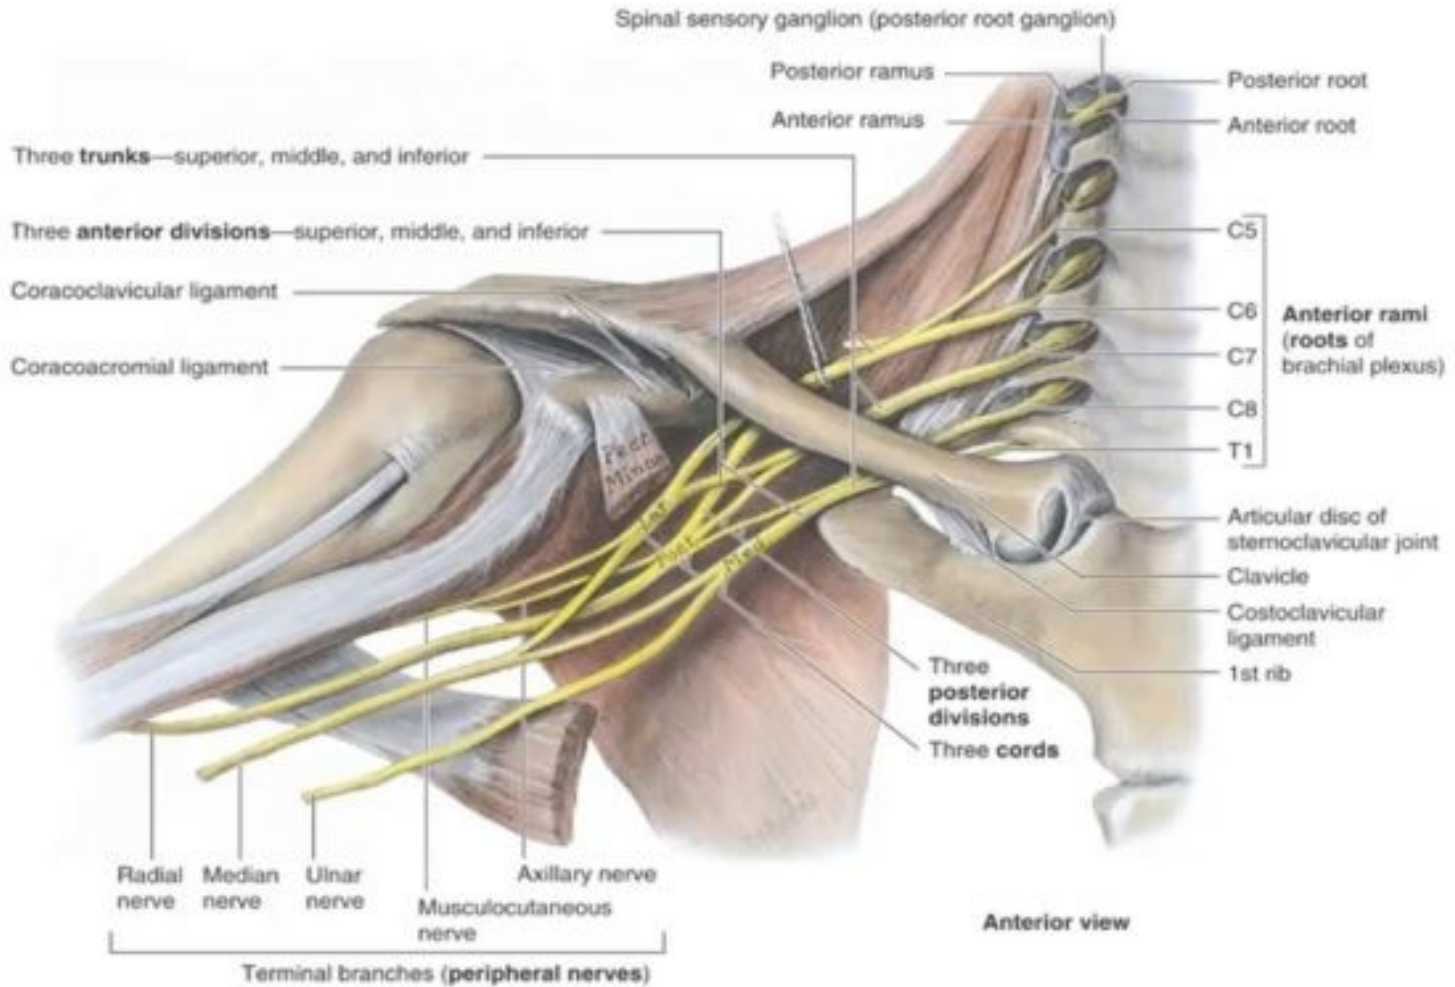

genua vara

cornu frontale

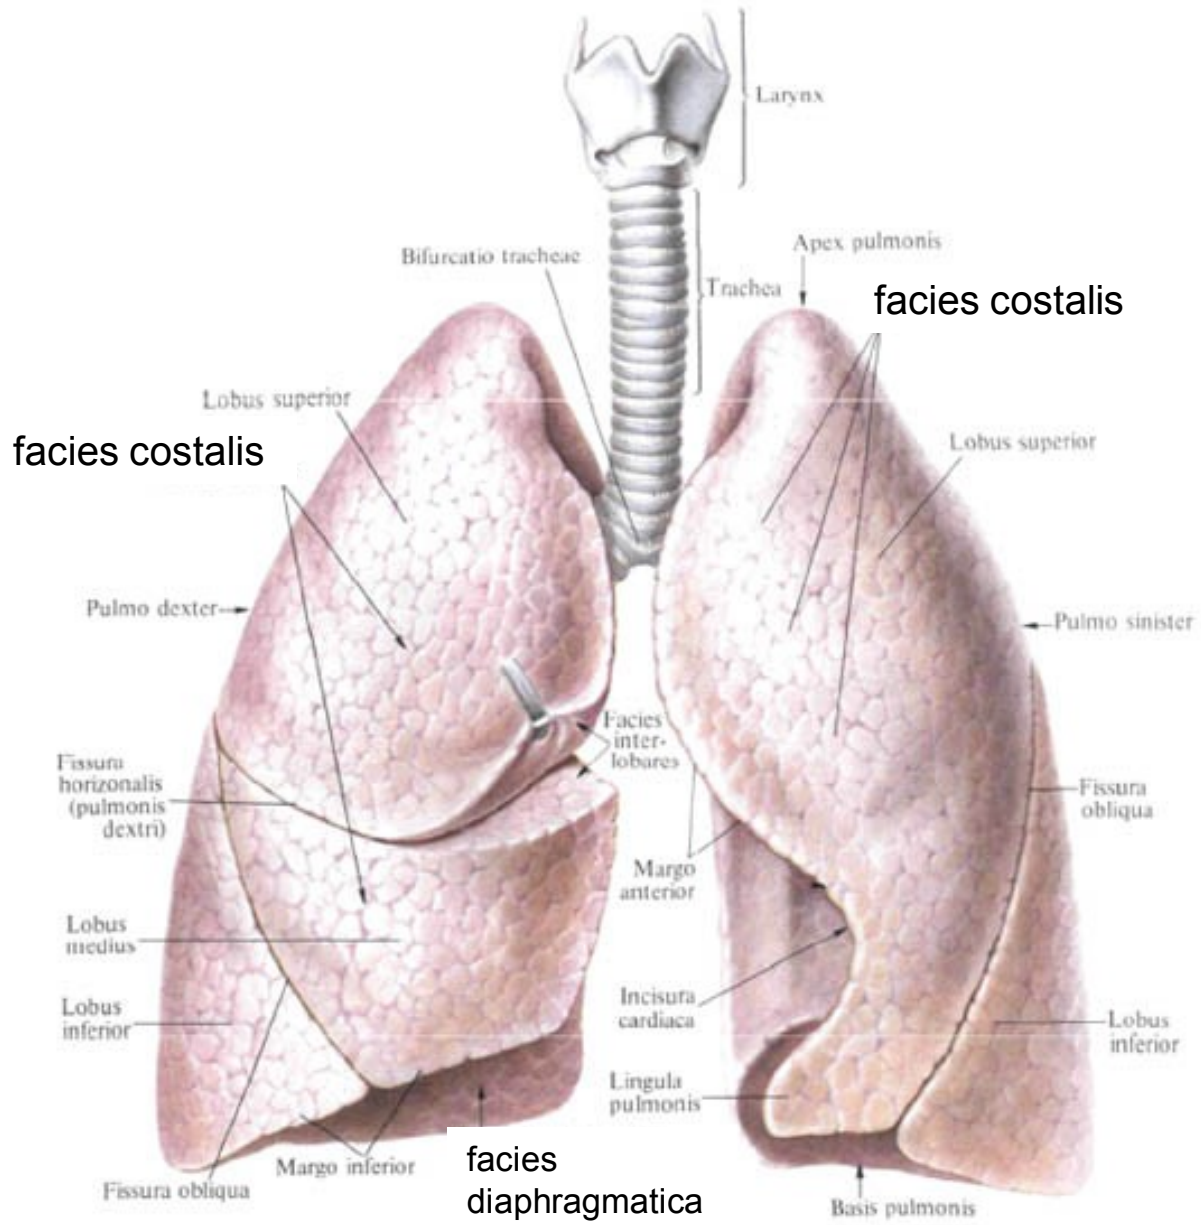

cornu occipitale

cornu temporale

plexus brachialis

Put from singular to plural and vice versa:

- sensus humanus
- phalanx media manus
- articulationes genuum
- in meatu acustico externo
- post laesionem faciei
- tractus nervosi
- propter decubitus regionis coccygeae
- prope processum costalem
- caries dentis
- sensus humani
- phalanges mediae manuum
- articulatio genus
- in meatibus acusticis externis
- post laesiones faciei
- tractus nervosus
- propter decubitum regionis coccygeae
- prope processus costales
- caries dentium

Match nouns with appropriate adjectives:

- manu
 - articulationis
 - plexum
 - pulmonum
 - oculum
 - cornua
 - genūs
 - fracturae
 - sclerosim
- *frontalia*
 - *sinistri*
 - *sinistra*
 - *multiplices*
 - *simplicis*
 - *brachialem*
 - *dextrum*
 - *multiplicem*
 - *sanorum*
-
- A series of blue arrows connecting the nouns on the left to the adjectives on the right. The connections are: manu to frontalia, articulationis to sinistra, plexum to simplices, pulmonum to brachialem, oculum to dextrum, cornua to multiplices, genūs to multiplicem, fracturae to sanorum, and sclerosim to simplices.

Form phrases:

- periculum — partus — praematurus
- sine — dolor — caput
- propter — pulsus — frequens
- symptoma — morbus — incipiens
- symptoma (pl.) — arthritis — rheumaticus
- contra — morbus (pl.) — infectiosus
- in — periculum — mors
- ulcus (pl.) — in — colon — descendens
- ad — scatula — parvus
- trauma (pl.) — gravis — columna vertebralis

Form phrases

- periculum partus praematuri
- sine dolore capitis
- propter pulsum frequentem
- symptoma morbi incipientis
- symptomata arthritidis rheumaticae
- contra morbos infectiosos
- in periculo mortis
- ulcera in colo descendenti
- ad scatulam parvam
- traumata gravia collumnae vertebralis

Form phrases:

- operatio — propter — fractura — gravis — ulna — sinister
- contusio — musculus — biceps — brachium
- in — status — post — infarctus — cor — recens
- propter — nephrosis — gravis
- gutta (pl.) — contra — tussis
- propter — fractura — collum — femur
- vulnus (pl.) — lacer — caput
- fractura — pars — distalis — humerus
- extractio — dens — lacteus — propter — caries
- apud — aditus — larynx
- in — sinus — occipitalis

Form phrases:

- operatio propter fracturam gravem ulnae sinistrae
- contusio musculi bicipitis brachii
- in statu post infarctum cordis recentem
- propter nephrosim gravem
- guttae contra tussim
- propter fracturam colli femoris
- vulnera lacera capitis
- fractura partis distalis humeri
- extractio dentis lactee propter cariem
- apud aditum laryngis
- in sinu occipitali / in sinum occipitalem

Fill in the chart

dosis parva
