Colloquium: the oral part (3rd year)

- you can do this part after you pass the credit test

- you have to book a date in IS

Tasks

A. You have to take patient's history from a Czech person

- o This includes:
  - Personal data, Family history, Personal history, Social and Work history
- o And one of the following histories
  - Cardiology, Pulmonology, GIT

You will be given a worksheet with gaps. You will have to ask the "patient" about

- personal data (5 possible points)
- current disease (5 possible points)
- personal history (at least 5 points)
- family history 1 **or** 2 (possible 5 points)
- women personal history **or** social and work history (possible 5 points)

Number of possible points (medical part): 25

B. Ask the "patient" about given general topic

- His/her plans for the summer.
  - o Ask about the destinations, schedule, transport, company etc.
- Directions: getting to some place of interest in the Czech republic
  - o Ask about how to get there (transport), why it is interesting, what you can see there etc.
- His/her favorite book/movie and its author(s)
  - o Ask about the book/movie and its content (what is it about), about he main characters and their look/qualities
- His/her free time
  - o Ask about his/her hobbies, where they take place, how much they cost, how often they are performed etc.
- My life in Brno this semester
  - o Ask about his/her occupation, activities duration, frequency etc.

Number of possible points (general part): 5

Passmark: 21/30.

Time limit for the exam: **15 MINUTES** (after the limit, the test will be stopped).

Evaluation (medical part): you must ask "the patient" in Czech language, you have to write the answers down in Czech language (grammar is not a part of the evaluation). Using English language is not allowed (neither in question, nor in answers).

If your answer corresponds with "patient's" answer, you get one point for one answer.

Evaluation (general part): your skill of asking the questions is tested, as well as your ability to react (spontaneity, fluency) and understand.
