Czech VIII – Final exam (online test + oral)

21. 5. 2020

Please turn your microphones off.

Online test: organisation

- ROPOT test (50 points; passmark: 35 or 30 points, depends on your HW)
- You have to book the date for the online test
- Dates are on IS
- The ROPOT will be available for students enrolled for each date only
- Results will be available within 3 days in special notebook

Online test: going through

- The ROPOT will be open for 25 minutes only
- Do not forget to click **SUBMIT**, once you are done with your answers
 - Can be found on the left side of your screen when the ROPOT is open
- Use „Save and continue“ option as well
in case you do not have stable connection

Save and continue

Close without
saving

Submit

Online test: going through

- In IS environment ([link](#))
- Open the ROPOT to make sure you are (technicaly) able to complete the tasks on your desktop or browser

Oral presentation: WHAT to do?

- Prepare **the presentation** – audio Slide show
- two parts
 - Brief case report of the patient
 - Characteristics of the disease

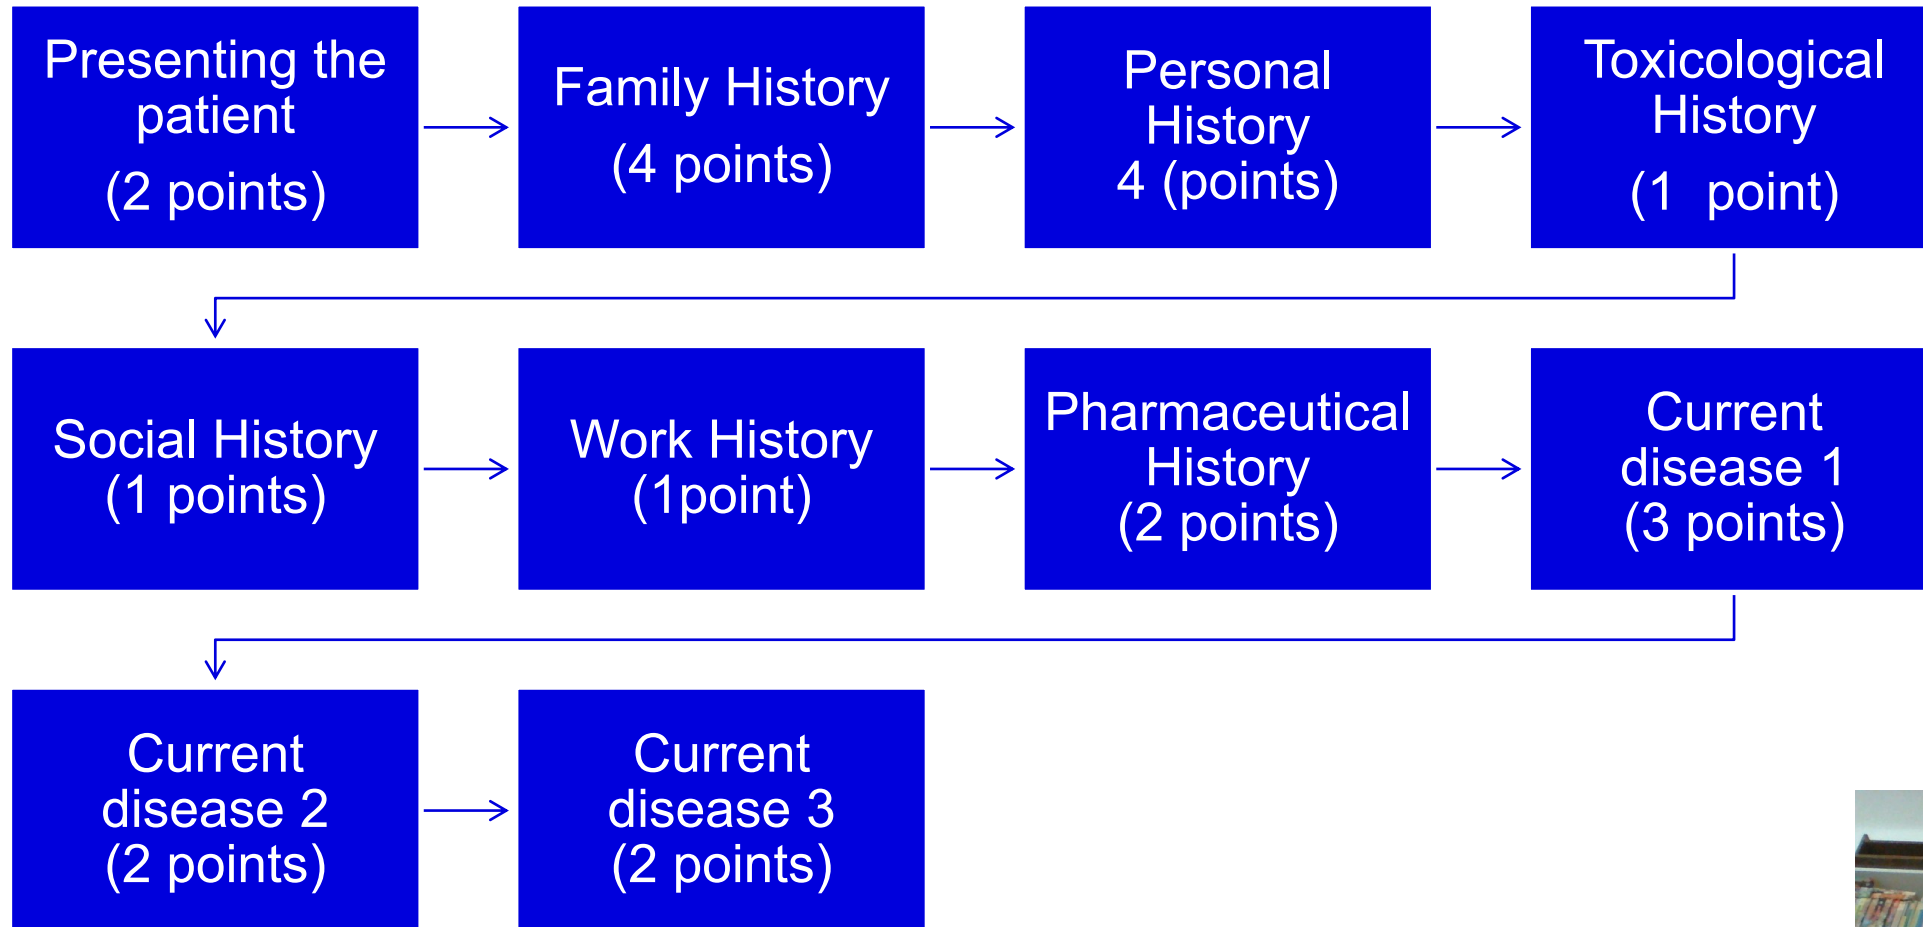

Oral presentation: Evaluation

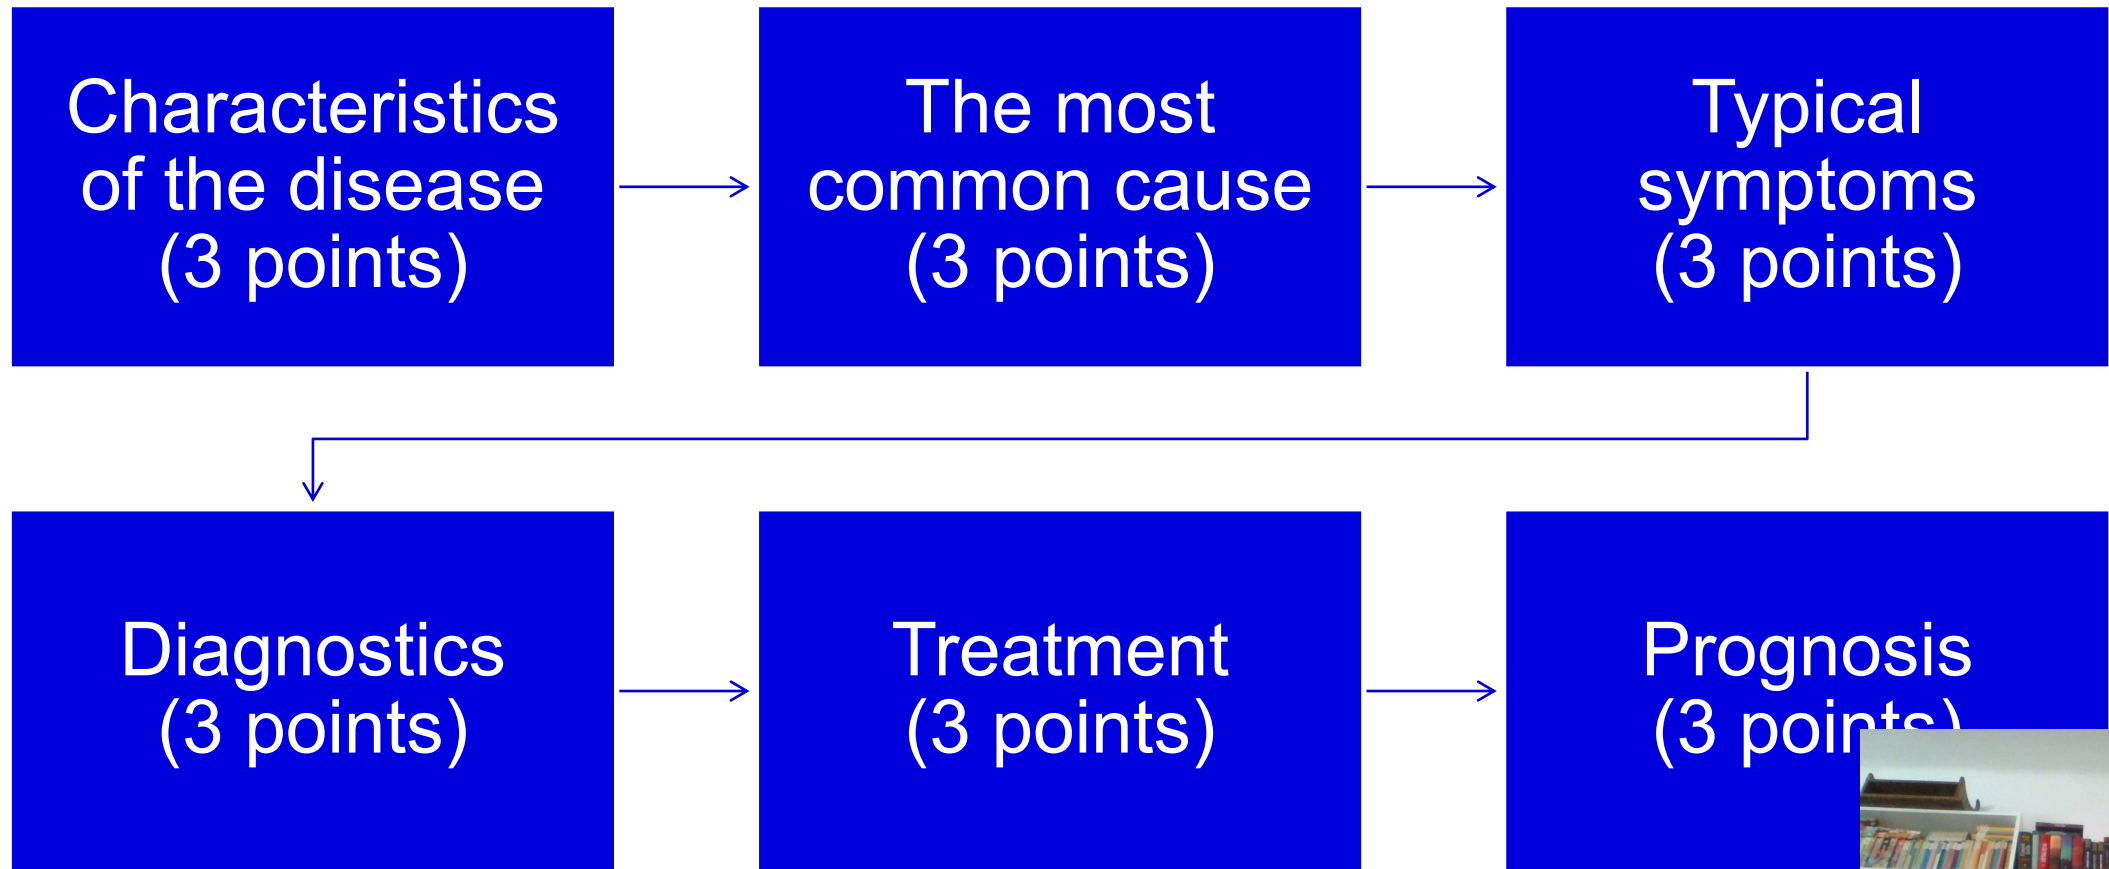

- Brief case report of the patient: up to 22 points
- Characteristics of the disease: up to 18 points
- pronunciation and comprehensibility: up to 10 points
 - 1 – almost incomprehensible, pronunciation influenced by a foreign language
 - 5 – fully comprehensible, less frequent deficiencies in pronunciation
 - 10 – perfect/natural pronunciation and comprehensibility
- passmark: 35 points

Brief case report of the patient

Characteristics of the disease

Oral presentation: HOW to do it?

prepare a written presentation

- use **words**; not long sentences, no paragraphs
- use **your own words** (use language understood by fellow Czech non-native speakers and the non-professional public)
- copying passages from Wikipedia, Google or any online source will not be accepted
- simplifying or paraphrasing is acceptable

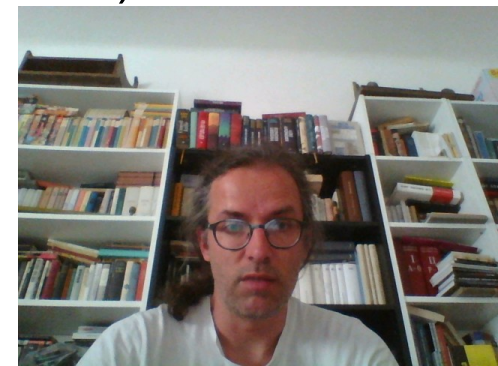

record your commentary

- do not read the slides, comment over them
- do not read the comment, speak as normaly; you will be recorded along with your commentary

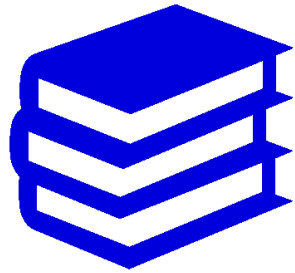

Preparing the presentation 1

- you have to use a software for presentations that allows you imbed voice records
- MS Powerpoint (license for free by MUNI)
 - <https://portal.office.com/account#installs>
 - works on desktops in MS Windows, macOC
 - works on phones/tablets in iOS, Android, Windows
- in case you do not have any device with OS mentioned above (e. g. you use linux), contact me for further help

Preparing the presentation 2

10 slides

multiple topics on one slide
it is possible to skip some parts

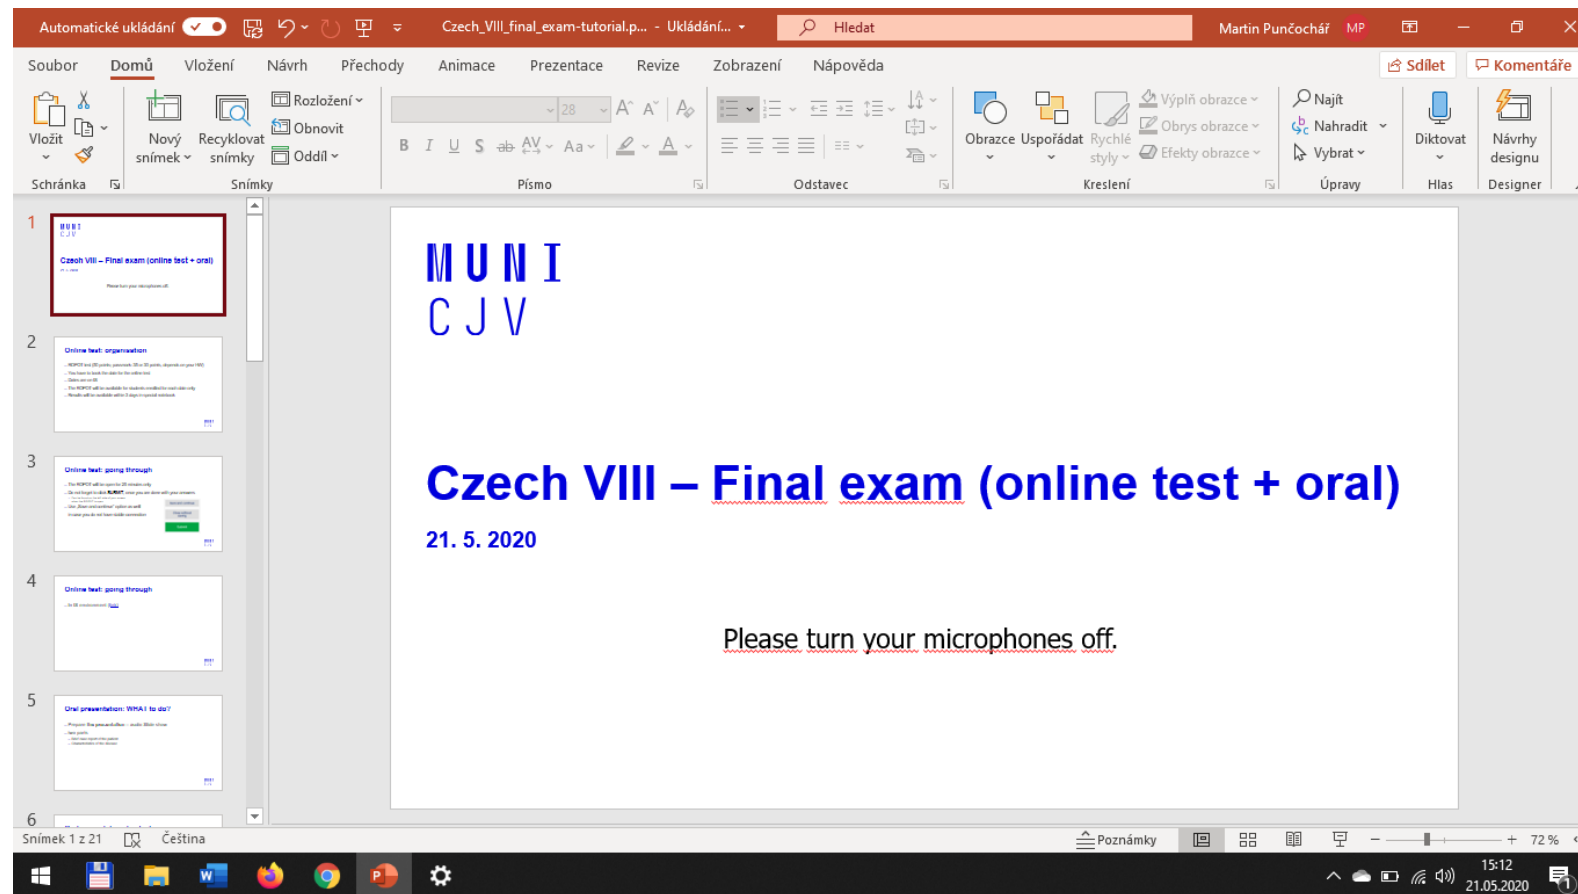

use your own words

spelling and grammar mistakes in written
part are not part of the evaluation

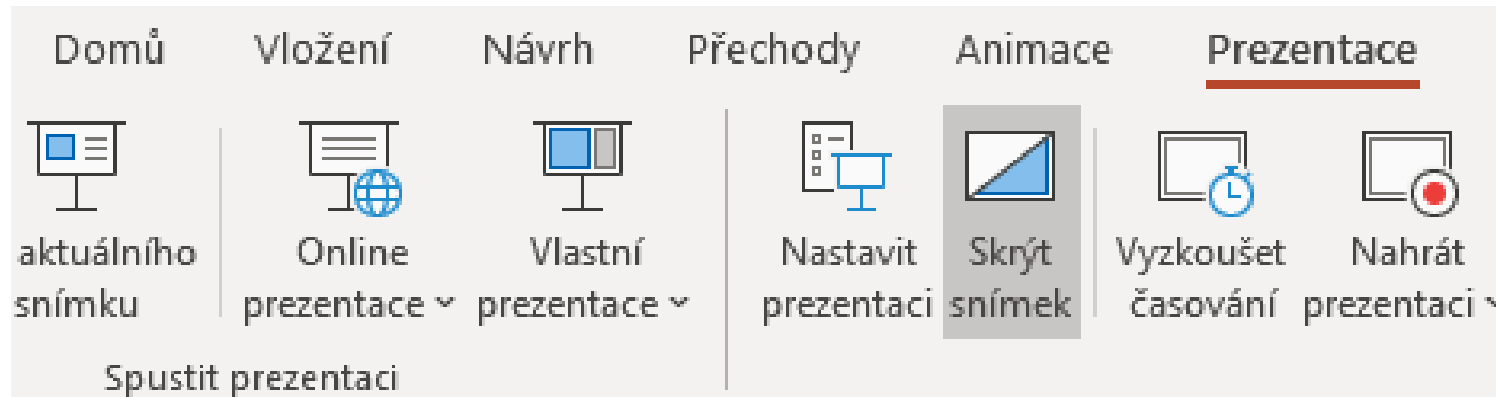

Preparing the presentation: step 1

- Open your presentation

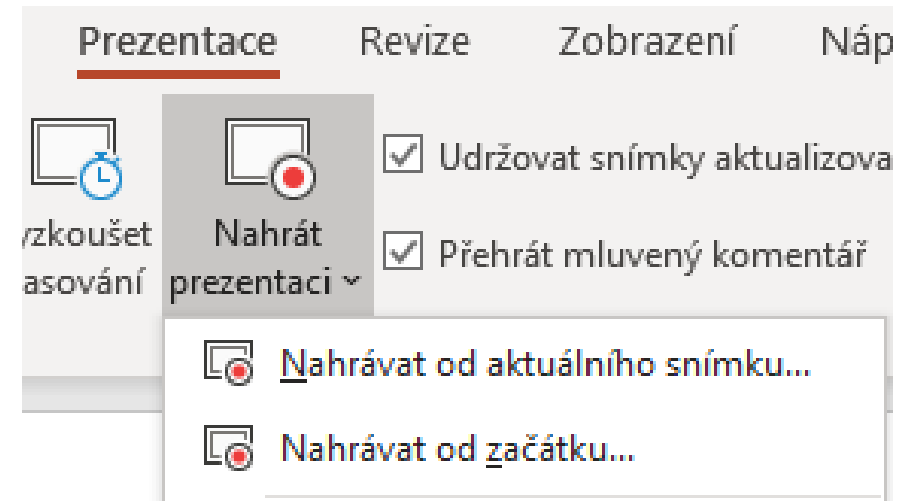

Preparing the presentation: step 2

- Go to „presentation“

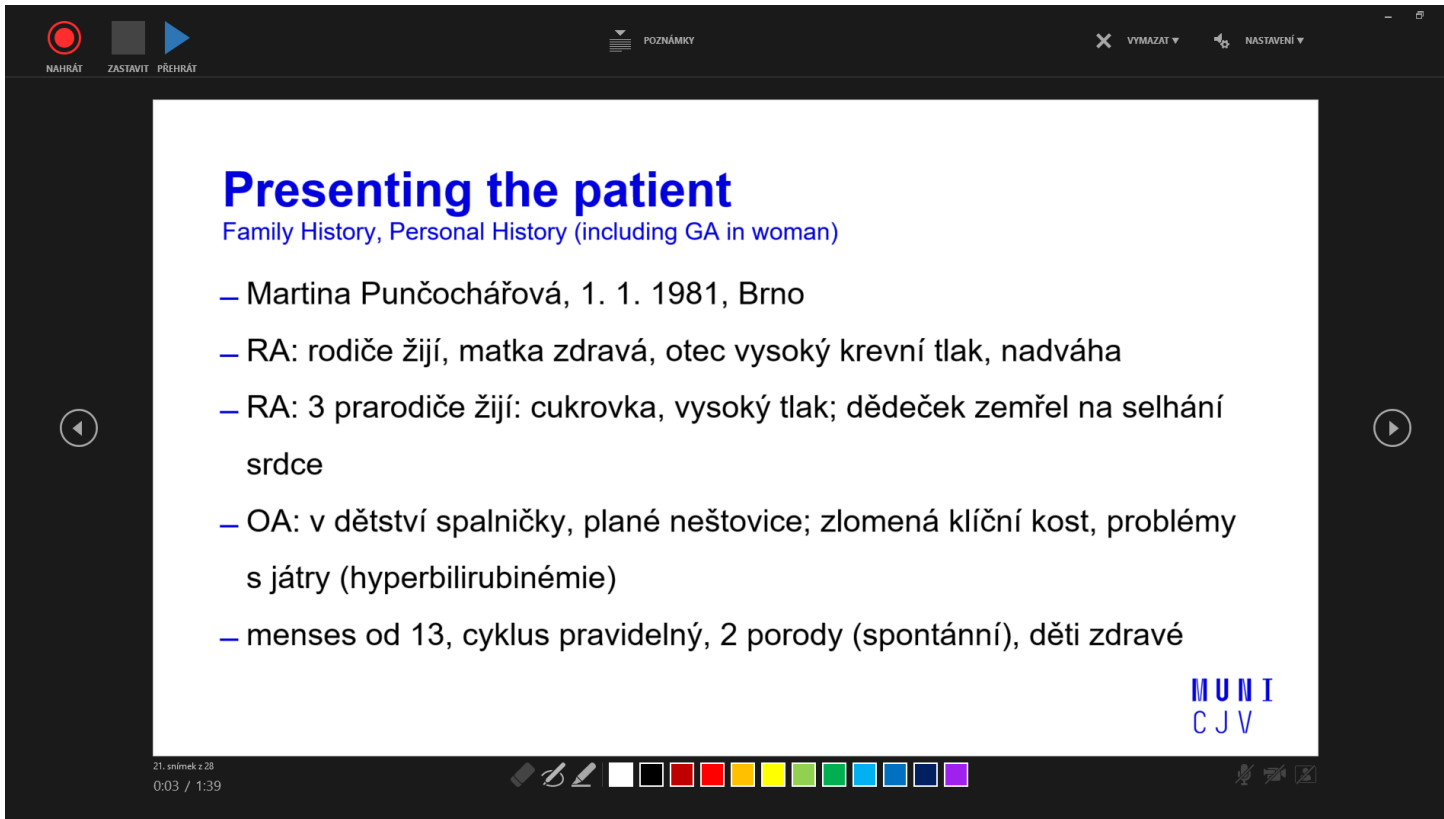

Preparing the presentation: step 3

- Choose „record my presentation“
- It doesn't matter what option you choose (*record from actual slide* or *record from the beginning*) because you are on the first slide

Preparing the presentation: step 3

- Press „record my presentation“
- It will get you to this screen

The screenshot shows a presentation slide with a dark background and white text. The slide title is "Presenting the patient" in blue, followed by the subtitle "Family History, Personal History (including GA in woman)". The main content is a list of medical history points. The slide is part of a presentation software interface, with a top bar containing icons for recording, stopping, and playing, and a bottom bar with a color palette and a timer.

Questions from online session

Mock test timing

- You should complete the test within 25 minutes.
- The ROPOT stays open from 10:00—10:30 (30 minutes) — to avoid connection issues
- Do not forget to press SUBMIT after you are done.

What if I have any connections problems during my online test?

- You can use the „Save and continue“ option
 - This saves your answers even though you are not able to submit your final answer.
- If the connection fails completely.
 - Do not worry, you will not lose the attempt, you will just have to take another date.

Do I have to use the camera or just audio?

- Use the camera, we want to see you. 😊
 - Using the camera also makes us sure you are not simply reading you comments from the paper, what we are interested in is your actual language skills.

Does the presentation have to be done in "one take" or can you record video for each slide?

This or that, both are ok.

What's the deadline for the "oral" part?

- Two weeks after you pass the written online test.
- Your teachers will tell you where they want you to upload your presentations.
