

## SÚKL pages

- Search for "your" medicine
- Find a medicine with the same active substance
- Find a medicine from the same ATC group
- **Which documents are available for each medicine?**
- **Could you identify any other useful information from this database?**

**SPC vs PIL** - find any medicine in the EMC, compare SPC and PIL, and look this information up:

- Find one indication and one contraindication
- Find any information about the drug's pharmacokinetics
- Find the drug's mechanism of action
- Could you prescribe this medicine to a pregnant woman?
- How is the intoxication manifesting?
- Which adverse effects are common or very common?
- Find one excipient from the medicine
- **Are there any differences between SPC and PIL?**
