

ZOTERO Fundamentals

Mgr. Aleš Peřina, Ph.D.

Contact for the topic Physical factors of the environment

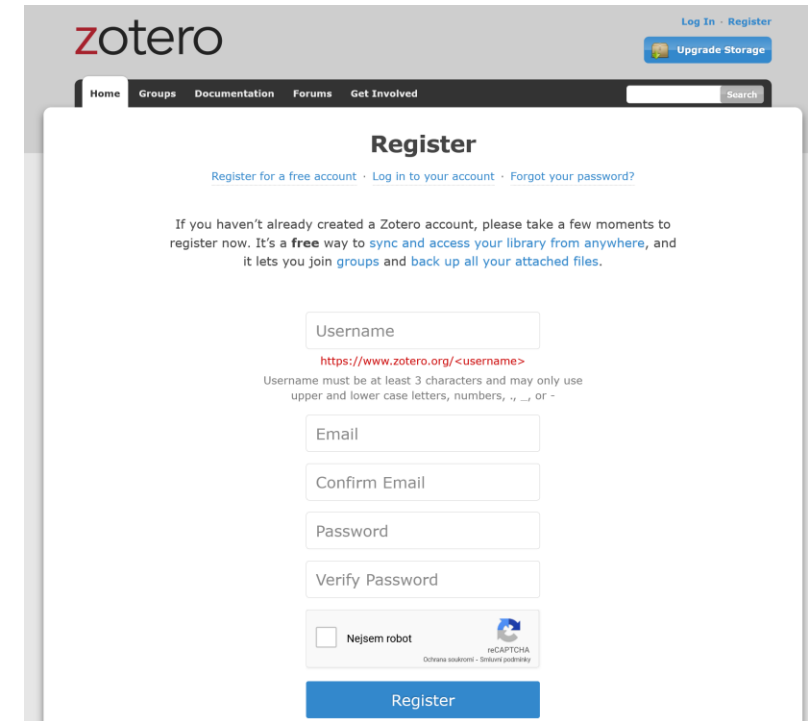

What is the Zotero?

- Open-source platform managing your citation and bibliographies
 - **Citation:** recording about the source you had used in your own work
 - **Bibliography:** list of the citation, usually at the end of you document
- Why do it?
 - Modern medicine is based on the information.
 - The good citation practice is the best way how to prevent plagiarism.

Step 1

- Create your own account at <https://www.zotero.org>
- Use is totally free.
- The desktop version and add-on for the Firefox browser can be downloaded there (not required).

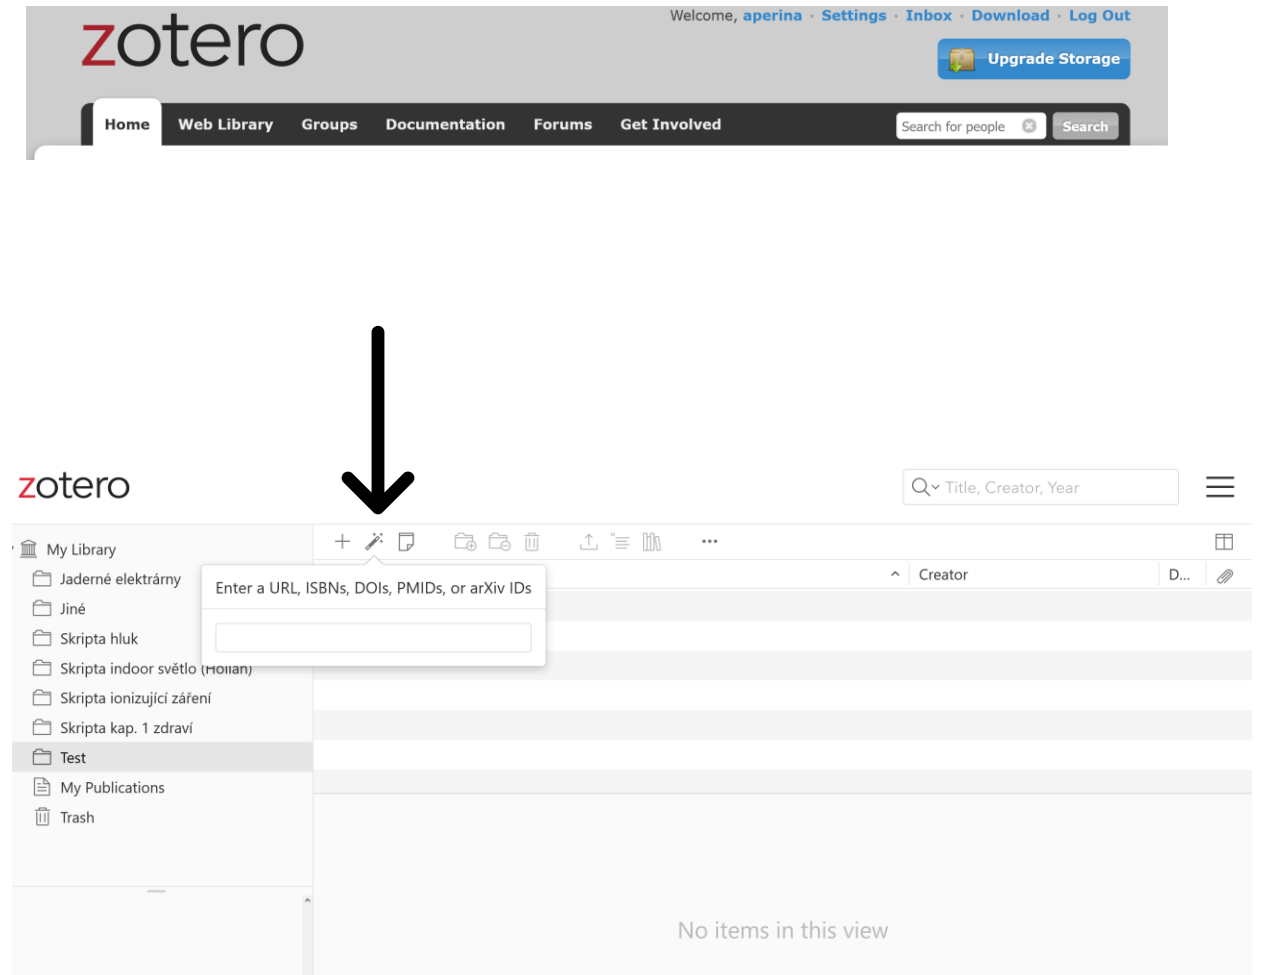

The screenshot shows the Zotero registration page. At the top, there is a navigation bar with links for Home, Groups, Documentation, Forums, and Get Involved, along with a search bar. The main heading is "Register". Below the heading, there are links for "Register for a free account", "Log in to your account", and "Forgot your password?". A paragraph explains that registration is free and allows users to sync their library, join groups, and back up files. The registration form includes fields for Username, Email, Confirm Email, Password, and Verify Password. A CAPTCHA checkbox labeled "Nejsm robot" is also present. A blue "Register" button is at the bottom.

Step 2

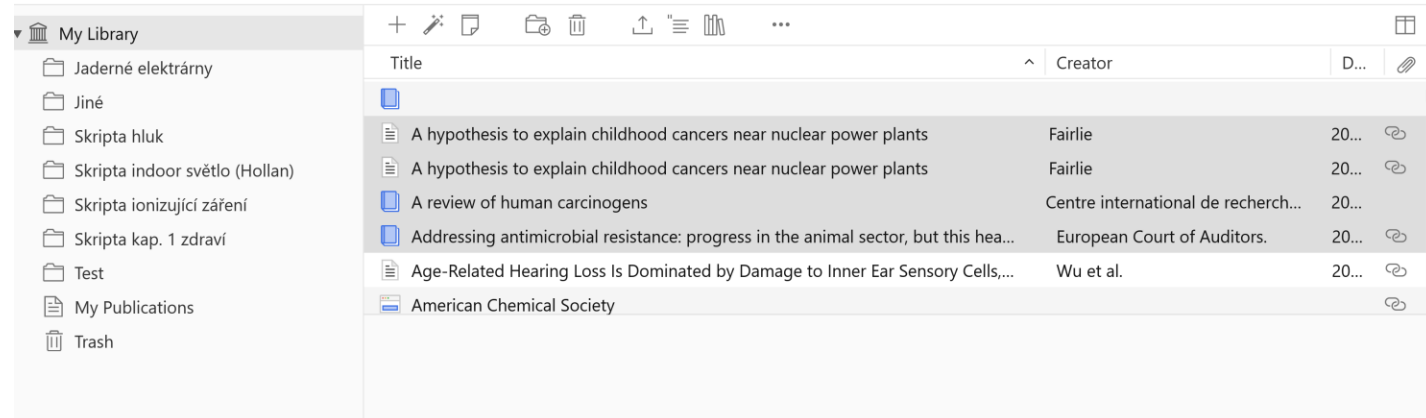

- After successful login, go to the "Web library" tab in the top menu
- Use the magic wand to create your first quote
 - Enter the web address (URL) from which you had used or another identifier of your work (e.g. ISBN of the book, DOI of the scientific article, etc.)
- The system will take care of the correct recording of all necessary data

Step 3

- The records you want to export mark using you PC mouse and use button "Create bibliography"

zotero

The screenshot shows the Zotero desktop application interface. On the left is a sidebar with a tree view of folders under 'My Library', including 'Jaderné elektrárny', 'Jiné', 'Skripta hluk', 'Skripta indoor světlo (Hollan)', 'Skripta ionizující záření', 'Skripta kap. 1 zdraví', 'Test', 'My Publications', and 'Trash'. The main area displays a table of records. A search bar at the top right contains the text 'Title, Creator, Year'. A large black arrow points down to the table area.

Title	Creator	D...	
A hypothesis to explain childhood cancers near nuclear power plants	Fairlie	20...	
A hypothesis to explain childhood cancers near nuclear power plants	Fairlie	20...	
A review of human carcinogens	Centre international de recherch...	20...	
Addressing antimicrobial resistance: progress in the animal sector, but this hea...	European Court of Auditors.	20...	
Age-Related Hearing Loss Is Dominated by Damage to Inner Ear Sensory Cells,...	Wu et al.	20...	
American Chemical Society			

Step 4

- Choose a citation style (experimentation is allowed here).
 - The Masaryk University uses the ISO-690 standard but it is not a requirement for this purpose.
- Using the button "Copy to clipboard" move the bibliography to the text editor or your presentation

[Copy to Clipboard](#) ▾

If you prefer desktop version

- In menu Edit – Preferences select your preferred citation style
- Insert the recording using the magic wand tool like the web version of the program
- Create bibliography by the shortcut Ctrl+Shift+C

If using a browser add-on

- While working, you must have the Zotero application running on your computer at the same time
- On the web page you want to cite, press the "Save to Zotero" button in the top menu of buttons.
- To create the bibliography is done in the desktop application using the shortcut s Ctrl+Shift+C
