- Max **2 types of medicines** on 1 e-Rx
- RMPs can be prescribed using **trade name** of the preparation or **INN** of the active substance (rarely used in CZ)

e-Rx TYPES

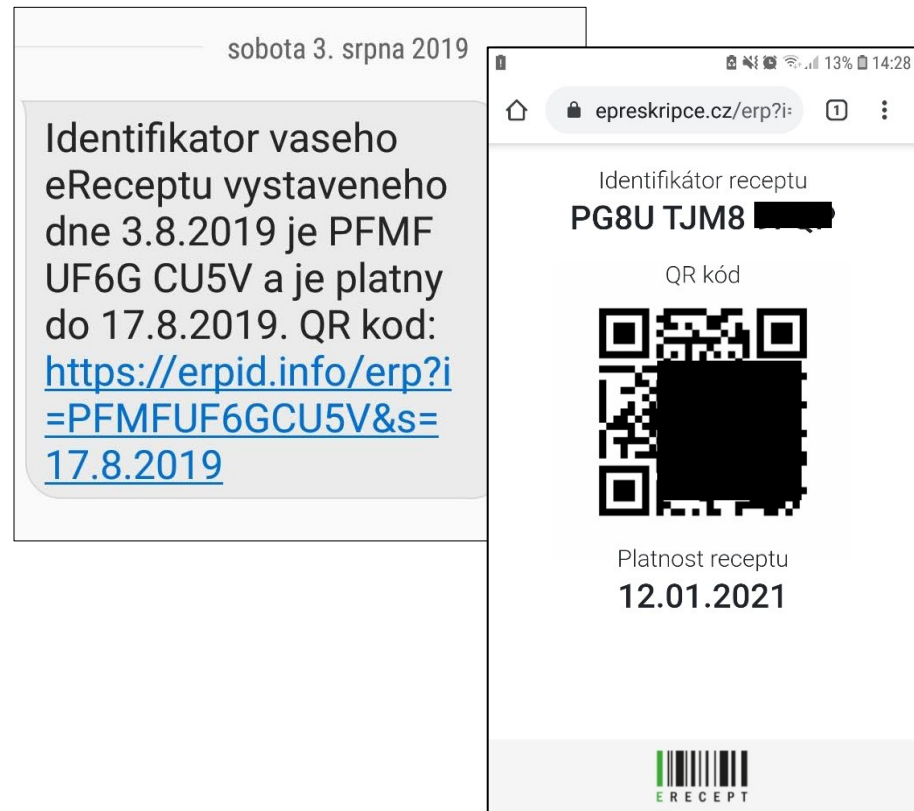

e-Rx on ID card

e-Rp App

e-Rp by sms

E-mail

Paper „dispatch note“

Pacient: Jana Příkladná * 5. 5. 1950 ZP: 111
Vystavení eRp: 1.1.2018 Platnost eRp: 15.1.2018

Lékař: MUDr. Jan Příkladný
Tel.: 555 555 555

PCIF F8GN BL23

PALENRA 500, TBL NOB 24 x 500MG
Množství: 1x Úhrada: pacient
Dávkování 1-0-0

PAPER Rx

- Exceptional, only in justified cases
- Not for repeated use**
- Pharmacist needs to **digitalize** it – record into the e-Rx system
- Only 1 type of medicine
- Valid without doctor's stamp, but the identification of the doctor need to be present („IČZ“ – identification number of medical facility)
- Which situations can justify the use of paper Rx?**
- Obligatory – specified addictive substances (Rx „with blue strip“)

SIGNS & SYMBOLS

- For repeated use (paper Rx: REPETATUR)
- Emergency (POHOTOVST)
- Ad usum proprium / For family (PRO POTŘEBY RODINY)
- No reimbursement (HRADÍ PACIENT)
- Higher reimbursement (ZVÝŠENÁ ÚHRADA)
- Do not change (NEZAMĚŇOVAT)
- Exceeding dose (PŘEKROČENÍ; Paper Rx: !)
- Non-authorized medical preparation (NEREGISTROVANÝ)

OVERVIEW OF RX VALIDITY

e-Rx

- 14 days + day of issue

- Doctor can extend validity up to 1 year, pharmacist can add another 14 days

Emergency – end of the day following the day of issue

Rx for repeated use – 6 months, max 1 year

Paper Rx – 14 days + day of issue

Rx „with blue strip“ – 14 days + day of issue; extension up to 30 days

ADDICTIVE SUB

- Prescription according to the su
463/2013, on the List of addictiv

Rx „with blue strip“

- Appendix 1 + 5 = **narcotics** (list
Single Convention on Narcotic D
Psychotropic Substances (1971
- Rx is a **paper form**, 3 pages (1
- 1 Rx = 1 type of medicine
- Specimen of the form is stated i
- Validity 14 days + day of issue

SYSTEM OF SHARED MEDICATION RECORDS („LÉKOVÝ ZÁZNAM“)

- New healthcare IT system activated on 1st June 2020
- Contains **all issued e-Rx for an individual patient**
- **Doctors, pharmacists and clinical pharmacists** are allowed to look for all e-Rx of a patient whom they take care of (no free browsing/searching in the data)
- Doctors: 5 years history; pharmacists: 1 year
- Check for **prescription duplicities, drug interactions, contraindications, adverse effects...**
- Taking **pharmacological anamnesis** is easier – doctor is not relying solely on the information from the patient
