Endochondral ossification

hand, *fetus*, 8th week, model of hyaline cartilage (HE)

Endochondral ossification (HE)

os metacarpi (fetus, 4th month)

Endochondral ossification (HES)

CONNECTIVE TISSUE II – cartilage and bone

Slides:

Hyaline cartilage (27. Trachea)

Elastic cartilage (94. Auricula, 28. Elastic cartilage - orcein)

Lamellar bone (95. Bone – HE or Schmorl)

Endochondral ossification (96.)

Atlas EM:

pages 38 - 41
