

Form meaningful phrases:

basis ossis sacri

canalis cervicis uteri

sclerosis arteriarum coronariarum

calculosis vesicae felleae

stenosis ostii venosi

margo liber unguis

pars thoracica systematis autonomici

thrombosis venarum in regione cruris sinistri

Join the terms in red ink with the expression *sanatio* (see slide 20):

sanatio sclerosis/scleroseos arteriarum coronariarum

sanatio calculosis/calculoseos vesicae felleae

sanatio stenosis/stenoseos ostii venosi

sanatio thrombosis/thromboseos venarum in regione cruris sinistri

Decide what the case and declension of every single noun are. Write down the nouns in the table on the next slide:

Aether pro narcosi

Cystes benignae corporis uteri

Myomata uteri cum prognosi bona

Haemodialysis propter functionem renum laesam

Metastases carcinomatosae pulmonum

In parte ossea tubae auditivae

	1st declension	2nd declension	3rd declension
nom. sg.			aether haemodialysis
gen. sg.	tubae auditivae	uteri	corporis
accus. sg.	laesam		functionem
abl. sg.	bona ossea		narcosi prognosi parte
nom. pl.	benignae carcinomatosae		cystes myomata metastases
gen. pl.			renum pulmonum
accus. pl.			
abl. pl.			

Fill in the missing endings:

Symptomata tuberculosis

Resectio radices dentis incisivi

Sub calcari avis

Amputatio pedis dextri cum narcosi

Aether pro anaesthesia

Fractura pelvis cum haemorrhagia in
cavitatem abdominis

Cochlear plenum mellis pro tussi
chronica

Rete venosum piaie matris encephali

Translate into Latin:

Death on the operating table

Mors in tabula

Symptoms of carcinomatous metastases

Symptomata metastasium carcinomatosarum

Operation without narcosis

Operatio sine narcosi

Lobes and parts of hypophysis

Lobi et partes hypophysis/hypophyseos

Free margins of nails

Margines liberi unguium

In acute fever

In feбри acuta

Milky teeth

Dentes lactei/decidui

Venous network of the eyeball

Rete venosum bulbi oculi

Medicaments against whooping cough

Medicamenta contra pertussim
