

Dear Colleagues,

I am very sorry for late information, but it was not my mistake. There was an error in interconnection my faculty IS with Medicine. I put all materials and wrote you about a month ago. Last week I wanted to verify if all is OK and I found out, that all is bad! Now I hope it will be OK.

I remind your seminary work.

Your task is to prepare the video (from the net), where good and bad example of non-verbal communication will be presented and their commentary.

Number:

a) one video - when good and bad sample of non-verbal communication are included in it, or

b) more videos- when one video involved only good example of way of non-verbal communication, another video another example good or poor non-verbal communication.

These videos please comment - what is right and what is wrong and why, your opinions...
The range of comments is approximately one A4 page.

If you need further information, write: trnova@ped.muni.cz

It was very nice time with you

Sincerely

Eva Trnová
