

Unit 4

Task 1:

vas, is, n – 3rd decl., example: in Sg corpus, in Pl septum; ulcus, eris, n – 3rd decl., example: corpus; luxatio, nis, f – 3rd decl., dolor; os, ossis, n / os, oris, n – 3rd decl., corpus, BUT Gen. Pl ossium!!!!; femur, oris, n – 3rd decl., corpus; cor, cordis, n – 3rd decl., corpus; cavitas, tis, f – 3rd decl., dolor; vulnus, eris, n – 3rd decl., corpus; cortex, icis, m – 3rd decl., dolor; aqua, ae, f – 1st decl., vena; digitus, i, m – 2nd decl., nervus; tumor, is, m – 3rd decl., dolor; ren, is, m – 3rd decl., dolor; abdomen, inis, n – 3rd decl., corpus

Task 2:

injectio, nis, f; cervix, cis, f; solutio, nis, f; tumor, is, m; femur, oris, n; vertebra, ae, f; saccharum, i, n; systole, es, f; oculus, i, m; cancer, cri, m; phalnx, gis, f; os, ossis, n; os, oris, n; colon, i, n; collum, i, n; extremitas, tis, f; caput, itis, n

Task 3:

tumor benignus/malignus; corpus humanum/adiposum; medicamentum novum/bonum; pes sinister/dexter; os sacrum; foramen nutricium; diameter longa/obliqua; vulnus scissum/sclopetarium/contusum/sectum/punctum

Task 4:

kidney: ren, is, m / nephros, i, m
brain: cerebrum, i, n / encephalon, i, n
mouth: os, oris, n / stoma, tis, n
liver: jecur, jecoris/jecinoris, n / hepar, tis, n
new growth: tumor, is, m / carcinoma, tis, n
body: corpus, oris, n / soma, tis, n
injury: vulnus, eris, n / trauma, tis, n

Task 5:

operatio cervicis uteri, corpus vertebrae thoracicae, fractura ossis sacri, luxatio cruris, morbus infectiosus abdominis,, dolor acutus capitis

Task 6:

post operationem carcinomatis, sub lobum dextrum pulmonis (direction) / sub lobo dextro pulmonis (location), propter dolorem acutum cordis, ad cavitatem nasi, pro injectione subcutanea, per os, cum vulnere secto, contra ulcus ventriculi

Task 7:

sphincteres, foramina nutricia, vasa longa, femora fracta, dolores chronici, musculi adductores, cartilagine thyreoideae, vulnera puncta

Task 8:

pia mater encephali, tumor benignus, ---, pes sinister, medulla osium rubra, vitium acquisitum, regio magna, sanatio per secundam intentionem

Task 9:

vitium acquisitum renis, operatio tumoris benigni in cavitate oris, fractura complicata femoris sinistri, luxatio articulationis, injectio contra dolorem acutum, periculum carcinomatis cervicis uteri, oculus post operationem

iridis, medicamentum bonum pro encephalite adulti, excisio tumoris benigni, medicamentum bonum pro colitide acuta

Task 10:

cum fractura corporis vertebrae, medicamentum pro vulnere secta labii, ruptura tendinis, aegrotus cum doloribus acutis in cavitate abdominis, vitium congenitum cordis, operatio tumoris maligni uteri, dolores in capite propter commotionem cerebri, vulnus post excisionem melanomatis in regione dorsi

Unit 5

Task 1:

psychosis organica, canalis nutricius, dens incisivus, febris acuta, sepsis lenta, metastasis isolata, mors clinica, rete venosum

Task 2:

psychoses organicae, canales nutricii, dentes incisivi, febres acutae, sepsis lentae, metastases isolatae, mortes clinicae, retia venosa

Task 3:

in febris continua/in febrim continuam, in emesi acuta/in emesim acutam, in canale alimentario/in canalem alimentarium, in thrombosi postoperativa/in trombosim postoperativam, in dente canino/in dentem caninum, in cochleari pleno/in cochlear plenum

Task 4:

a, sectiones pontis, diphtheria faucium, axis pelvis, cirrhosis hepatis, calcar avis, sulci cutis, melanosis coli
b, basis ossis, pars apicis, sclerosis arteriarum, calculosis vesicae, stenosis ostii, canalis cervicis

Task 5:

pars apicis magni, sclerosis arteriarum coronariarum, calculosis vesicae urinariae, stenosis ostii venosi, canalis cervicis uteri

Task 6:

sanatio partis apicis magni, sanatio sclerosis/eos arteriarum coronariarum, sanatio calculosis/eos vesicae urinariae, sanatio stenosis/eos ostii venosi, sanatio canalis cervicis uteri

Task 7:

stratum corneum unguium, pars thoracica systematis autonomici, stenosis ostii venosi sinistri

Task 8:

parte hypophysis/eos, symptomata tuberculosis/eos, resectio radice dentis, sub calcari avis (location)/calcar avis (direction), amputatio pedis dextri cum narcosi, febris cum tussi, aether pro anaesthesia, fractura pelvis cum haemorrhagia in cavitate abdominis, cochlear plenum mellis pro tussi chronica

Task 9:

mors in tabula, pars profunda glandulae parotidea, symptomata tuberculosis/eos, cum narcosi, lobi et partes hypophysis/eos, ungues, auris interna, rete carpi, in febris acuta, dentes canini, rete venosum bulbi oculi, symptomata psychosis/eos organicae, antibiotica contra pertussim, symptomata synarthrosis/eos

Repetition 3rd declension

1.

sulcus, i, m – like nervus, sulcorum; cartilago, inis, f – like dolor, cartilaginum; tegmentum, i, n – like septum, tegmentorum; gestosis, is/eos, f – like dosis, gestosium; frons, tis, f – like pelvis, frontium; cochlear, is, n – like rete, cochlearium; belladonna, ae, f – like vena, belladonnarum; rotator, is, m – like dolor, rotatorium; mel, lis, n – like corpus, mellum; tussis, is, f – like dosis, tussium; alvus, i, m – like nervus, alvorum; ascites, ae, m – like diabetes, ascitarum

2.

fractura hallucis pedis sinistri; sanatio carcinomatis cervicis uteri; operatio luxationis congenitae coxarum; functio laesa musculi adductoris; resectio dentium incisivorum; sclerosis arteriarum coronariarum; symptoma calculosis/eos renis

3.

contra oedemata pedum; propter vitium acquisitum vesicae felleae; inter digitos pedis; ad apicem cordis; cum periculo mortis in tabula; sine narcosi; post sanationem per primam intentionem in calcari avis

4.

dolore acuto – abl. – doloribus acutis; inflammationis periculosae – gen. – inflammationum periculosarum; operationem complicatam – acc. – operationes complicatas; os sacrum – nom./acc. – ossa sacra; pontis cerebri – gen. – pontium cerebrorum; apicem cordis – acc.+gen. – apices cordum; extracto chamomillae – abl.+gen. – extractis chamomillarum; radix dentis – nom.+gen. – radices dentium; lobi dextri – gen. – lorum dextrorum; prophylaxim – acc. – prophylaxes; corneam oculi – acc.+gen. – corneas oculorum; tumore benigno – abl. – tumoribus benignis; symphysis pubica – abl. – symphysis pubicis; febris continuae – gen. – februm continuarum; tuberculosis primaria – nom. – tuberculoses primariae; functione laesa – abl. – functionibus laesis

5.

pulmo sinister; pars minima; psychosis organica; dens lacteus; mens sana; tumor malignus; stenosis acuta; vulnus lacerum; prognosis bona; solutio physiologica; morbus infectiosus; vesica fellea; canalis palatinus; mater pia; dolor chronicus; medulla oblongata

6.

commotio, commotionis, f, 3rd declension, like dolor; because of the concussion of brain

humanus, a, um – in human head

sclerosis, sclerosis/eos, f, 3rd declension, like dosis – medicament against sclerosis of arteries

lac, lactis, n, 3rd declension, like corpus – lactose

dens, dentis, m, 3rd declension, like dolor – excision of canine tooth

cochlear, cochlearis, n, 3rd declension, like rete – spoon full of honey

sectus, a, um – with cut wound

abdomen, abdominis, n, 3rd declension, like corpus – acquired disorder of abdomen

benignus, a, um – benign cystis in the body of uterus

apex, apicis, m, 3rd declension, like dolor – top of the heart

7.

medulla ossium flava, mixtura pro injectione, vulnus contusum cum oedemate, thrombosis venae pedis sinistri, cum prognosi bona, propter cancrum ventriculi, lagoena plena aquae, ad cavitatem nasi, diphtheria faucium (Pl.), foramina nutricia ossis, cum diabeta mellito, pro aegroto, mens sana in corpore sano, in aure interna (location), musculi rotatores (Pl.), sine narcosi, dolor in regione pharyngis, inter phalanges digitorum (Pl.), fissura transversa cerebri

8.

lobus dexter hepatis/jecoris/jecineris
operatio sine dolore cum narcosi
vulnus sectum antebrachii sinistri
morbus infectiosus abdominis
sine symptomatibus tuberculosis/eos
medicamenta contra febrim continuam
propter insufficientiam hypophysis/eos
sanatio pneumoniae acutae
emesis gravidarum
