

Program of practicals:

autumn semester 2015/2016

10th – 14th (teaching) week

November 23rd, 2015 - January 8th, 2016

The letters A, B, C indicate the workplace, the numbers in the brackets correspond to the numbers of exercises in the new textbook "**Physiology practicals**" (2013).

Workplace	Exercises
A	Ergometry (14)
B	Measurement of pulse wave velocity. Sphygmography (12)
C	Pneumotachography and estimation of airway resistance (20)

Changing of the study groups:

Wednesday (16:00 - 18:30)		25.11.	16.12.	2.12.
31	dr. Al Kubati	C+A	B	substitution 13:00
35	doc. Pásek	B+C	A	substitution 10:00
34	dr. Novák	A+B	C	substitution 10:00
Thursday (10:30 - 13:00)		26.11.	17.12.	2.12. 13:00
30	dr. Závodná	A+B	C	substitution
32	dr. Nováková Z.	B+C	A	substitution
33	dr. Stračina	C+A	B	substitution
Friday (8:15 - 10:45)		27.11.	18.12.	2.12. 10:00
36	doc. Bébarová	B+C	A	substitution
37	prof. Nováková	C+A	B	substitution

*30.11.-4.12. autopsy practice - 30, 31, 32, 33 - morning (8.00-12.00h); 34, 35, 36, 37 - afternoon
7.-11.12. autopsy practice - 34, 35, 36, 37 - morning; 30, 31, 32, 33 - afternoon (13.00-17.00h)

CREDIT TEST: 14.12.-20.12.2015: IS MUNI - code of course:VSFY0321c - ROPOT;
single test (20 questions, only one attempt, time to write:16 min);
success:12 and more points

substitute test: 4.1.-10.1.2016

The practicals take place at the Department of Physiology (Campus, 1st floor, building A 20)

The rules to be kept in the practicals

1. Students are obliged to attend practicals according to the schedule for particular study group.
2. **Attendance at all practicals is a condition for obtaining the credit.**
3. **The absences can be compensated only at the last part of semester according to a special schedule -2.12.2015, 10:00h or 13:00h.**
4. Students are obliged to come for practicals **in time**, e.g. no later than 5 minutes before the start of practical.
5. Students are obliged to come for practicals **with sufficient knowledge** of the particular topic. It means they must know the key words (control questions), aim of the exercise and some theory. In case student is not ready for practical, this may be a reason for expelling him/her from practicals.
6. As a result from practical, laboratory record is written. **It must be signed by the teacher at the end of practical.** The structure of such a record is outlined in the textbook.
7. Bring with you: textbook, lab coat, notebook A4, pen, pencils, calculator.

doc. PharmDr. Petr Babula, Ph.D.

Head of the Department of Physiology
