

## Integumentary system

Name the layers of the skin and describe what they contain.  
 What is the difference between a partial-thickness and full-thickness injury?  
 What are the functions of the skin?

Describe the causes, symptoms and treatment of *acne*, *athlete's foot*, *burns*, *seborrheic dermatitis*, *contact dermatitis*, *psoriasis*, *basal cell carcinoma*, *squamous cell carcinoma*, *malignant carcinoma*, *vitiligo*, *hand warts*, *foot warts*, *flat warts*, and *cold sores*.

What lesions are in the diagram?  
*crust*                      *purpura*                      *wheel*  
*ecchymosis*              *pustule*                      *scale*  
*macule*                      *ulcer*                      *vesicle*  
*patch*
