

Separate the English sentences from task B into sections, find nouns, adjectives, prepositions, decide cases, genders and number, then finally translate.

Example:

shot wound of the upper extremity on the right side:

(1) shot wounds || (2) of the upper extremity || (3) on the right side

(1) subject = nominative; vulnus = neutral, plural → sclopetarius = neutral, plural

(2) of = genitive; extremitas = feminine, singular → superior = feminine, singular

(3) on = ablative // genitive („of the side“); latus = neutral, singular → dexter = neutral, singular

vulnera sclopetaria extremitatis superioris lateris dextri / in latere dextro
