

PRACTICES

GENERAL PATHOLOGY

16. 9. - 20. 9. 2024

0. Opening practical session

- attendance
- organization of education in 1st Department of Pathological Anatomy
- basic safety instructions (occupational safety in potentially infectious surrounding)
- explanation of terms:
 - pathological-anatomical autopsy
 - biopsy, reporting of biopsy, basic processing of biopsies

23. 9. - 4. 10. 2024

1. Regressive alterations (incl. necrosis, apoptosis), dystrophy, pigments.

- 13. Acute myocardial infarction
- 65. Infarction of the kidney
- 20. Hemorrhagic pulmonary infarction
- 94. Encephalomalacia (older)
- 21. Pulmonary emphysema
 - 1. Amyloidosis (myocardium/kidney/liver)
 - 48. Steatosis of the liver
 - 12. Atherosclerosis with mural thrombus
 - 111. Compound melanocytic nevus
 - 49. Cholestasis in the liver (with obstructive icterus)
 - 29. Pulmonary silicosis

7. 10. – 18. 10. 2024

2. Circulation disorders, local, systemic. Inflammation I.

- 3. Organization of the thrombus
- 22. Pulmonary oedema
- 23. Chronic pulmonary venous congestion
- 50. Chronic venous congestion in the liver
- 19. Polypous rhinitis
- 17. Fibrinous pericarditis
- 32. Mycotic esophagitis
- 42. Pseudomembranous colitis
- 95. Purulent meningitis
- 25. Purulent bronchopneumonia (abscessing)
- 46. Phlegmonous appendicitis
- 66. Purulent pyelonephritis
- 15. Acute bacterial endocarditis
- 28. Interstitial pneumocystis pneumonia
- 59. Chronic lymphoplasmacytic thyroiditis (Hashimoto)

21. 10. - 1. 11. 2024

3. Inflammation II (proliferative and specific inflammation). Progressive alterations (hyperplasia, hypertrophy, regeneration, reparation, metaplasia, dysplasia).

2. Granulation tissue
24. Pulmonary tuberculosis
10. Sarcoidosis of lymph nodes
14. Dispersive myocardial myofibrosis
36. Chronic peptic ulcer of the stomach
51. Cirrhosis (active chronic hepatitis in the stage of cirrhosis)
61. Colloid-nodular goiter
74. Benign prostatic hyperplasia
81. Corporal endometrial polyp / endometrial hyperplasia
77. Squamous cell metaplasia of the cervix, ovulosis
79. HG cervical intraepithelial neoplasia (CIN)

4. 11. - 15. 11. 2024

4. Tumors I (mesenchymal, epithelial, neuroectodermal, germ cell tumors).

106. Verruca vulgaris
4. Squamous cell carcinoma
110. Basal cell carcinoma of the skin
70. Low-grade papillary carcinoma of the urinary bladder
62. Follicular adenoma of the thyroid
45. Tubular adenoma of the colon with high-grade epithelial dysplasia
37. Adenocarcinoma of the stomach/bowel (intestinal type)
38. Adenocarcinoma of the stomach with signet-ring tumor cells
53. Hepatocellular carcinoma
71. Clear cell renal carcinoma (Grawitz)
92. Mammary invasive ductal carcinoma
47. Neuroendocrine tumor – carcinoid in the appendix
31. Small cell lung carcinoma
83. Uterine leiomyoma
39. Gastrointestinal stromal tumor (GIST)
52. Capillary hemangioma of the liver
101. HG osteosarcoma
96. Glioblastoma multiforme
97. Meningioma
98. Neurinoma
112. Malignant melanoma
76. Seminoma of the testis
91. Mammary fibroadenoma (pericanalicular/intracanalicular)

18. 11. - 29. 11. 2024

5. Tumors II (hemato-oncology). Pathology of lymph nodes (reactive alterations, lymphomas).

5. Chronic lymphocytic leukemia/small lymphocytic lymphoma (CLL/SLL)
6. Follicular lymphoma
7. Diffuse large B-cell lymphoma (DLBCL)
8. Hodgkin lymphoma
9. Tuberculous lymphadenitis
10. Sarcoidosis of lymph nodes
11. Nonspecific reactive lymphadenitis

SYSTEMATIC PATHOLOGY

2. 12. – 13. 12. 2024

1. Pathology of the cardiovascular system.

- 12. Atherosclerosis with mural thrombus
- 13. Acute myocardial infarction
- 14. Dispersive myocardial myofibrosis
- 15. Acute bacterial endocarditis
- 16. Viral myocarditis
- 17. Fibrinous pericarditis
- 18. Myxoma of the left atrium

16. 12. - 20. 12. 2024

- supplementary practical session

17 . 2. – 28. 2. 2025

2. Pathology of the respiratory tract.

- 19. Polypous rhinitis
- 20. Hemorrhagic pulmonary infarction
- 21. Pulmonary emphysema
- 22. Pulmonary oedema
- 23. Chronic pulmonary venous congestion
- 24. Pulmonary tuberculosis
- 25. Purulent bronchopneumonia (abscessing)
- 26. Aspiration of the amniotic fluid
- 27. Acute respiratory distress syndrome (ARDS)
- 28. Interstitial pneumocystis pneumonia
- 29. Pulmonary silicosis
- 30. Chondroid hamartoma of the lung
- 31. Small cell lung carcinoma

3. 3. - 14. 3. 2025

3. Pathology of the alimentary tract.

- 32. Mycotic esophagitis
- 33. Warthin tumor
- 34. Barrett´s esophagus
- 35. Chronic nonatrophic gastritis associated with H. Pylori
- 36. Chronic peptic ulcer of the stomach
- 37. Adenocarcinoma of the stomach/bowel (intestinal type)
- 38. Adenocarcinoma of the stomach with signet-ring tumor cells
- 39. Gastrointestinal stromal tumor (GIST)
- 40. Crohn´s disease
- 41. Ulcerative colitis
- 42. Pseudomembranous colitis
- 43. Hemorrhagic intestinal infarction
- 44. Hyperplastic polyp of the colon
- 45. Tubular adenoma of the colon with high-grade epithelial dysplasia
- 46. Phlegmonous appendicitis
- 47. Neuroendocrine tumor – carcinoid in the appendix

17. 3. - 28. 3. 2025

4. Pathology of the liver, biliary tract, pancreas, incl. pathology of diabetes. Pathology of the endocrine system.

- 48. Steatosis of the liver
- 49. Cholestasis in the liver (with obstructive icterus)
- 50. Chronic venous congestion in the liver
- 51. Cirrhosis (active chronic hepatitis in the stage of cirrhosis)
- 52. Capillary hemangioma of the liver
- 53. Hepatocellular carcinoma
- 54. Ductal adenocarcinoma of the pancreas
- 55. Liver metastasis of adenocarcinoma
- 56. Acute (or chronic) cholecystitis
- 57. Acute hemorrhagic pancreatitis
- 59. Chronic lymphoplasmacytic thyroiditis (Hashimoto)
- 60. Diffuse toxic goiter (Graves-Basedow disease)
- 61. Colloid-nodular goiter
- 62. Follicular adenoma of the thyroid
- 63. Papillary thyroid carcinoma
- 64. Pheochromocytoma

31. 3. - 11. 4. 2025

5. Pathology of the urinary tract (kidneys, collecting system).

- 65. Infarction of the kidney
- 66. Purulent pyelonephritis
- 67. Acute glomerulonephritis (proliferative or crescentic)
- 68. Diabetic glomerulosclerosis, microangiopathy
- 69. Vascular nephrosclerosis
- 70. Low-grade papillary carcinoma of the urinary bladder
- 71. Clear cell renal carcinoma (Grawitz)
- 72. Wilms' tumor
- 73. Papillary renal cell carcinoma

14. 4. - 25. 4. 2025

6. Pathology of the genital system. Pathology of the breast.

- 74. Benign prostatic hyperplasia
- 75. Acinar adenocarcinoma of the prostate
- 76. Seminoma of the testis
- 77. Squamous cell metaplasia of the cervix, ovulosis
- 78. Condyloma acuminatum
- 79. HG cervical intraepithelial neoplasia (CIN)
- 80. Tubal pregnancy / post-abortion residual tissue
- 81. Corporal endometrial polyp / endometrial hyperplasia
- 82. Uterine endometrioid adenocarcinoma
- 83. Uterine leiomyoma
- 84. Ovarian fibroma
- 85. Mature teratoma (dermoid cyst)
- 86. Choriocarcinoma
- 87. Endometriosis
- 88. Ovarian serous cystadenocarcinoma
- 89. Ovarian mucinous cystadenocarcinoma
- 90. Granulosa cell tumor
- 91. Mammary fibroadenoma (pericanalicular/intracanalicular)
- 92. Mammary invasive ductal carcinoma
- 93. Mammary invasive lobular carcinoma

28. 4. – 9. 5. 2025

7. Pathology of the central and peripheral nervous system.

- 94. Encephalomalacia (older)
- 95. Purulent meningitis
- 96. Glioblastoma multiforme
- 97. Meningioma
- 98. Neurinoma
- 64. Pheochromocytoma

12. 5. – 23. 5. 2025

8. Pathology of the musculoskeletal system and skin.

- 99. Lipoma
- 100. Osteochondroma
- 101. HG osteosarcoma
- 102. Giant cell tumor of bone
- 103. Osteomyelitis (purulent)
- 104. Gout tophi (skin, joint capsule...)
- 105. Psoriasis
- 106. Verruca vulgaris
- 107. Verruca seborrhoica
- 108. Foreign body granuloma
- 109. Capillary hemangioma of the skin
- 110. Basal cell carcinoma of the skin
- 111. Compound melanocytic nevus
- 112. Malignant melanoma

since 26. 5. 2025

- viewing of exam slides in practical session room
- supplementary practical session
