

Instructions for teachnig

The practical training will be performed in the Simulation center on Tuesday and Wednesday. On Monday, Thursday and Friday the practical training will be performed at Department for Stomatology at the St Ann Faculty Hospital.

During this week you will do the practical part of the state exam. See the schedule below:

Tuesday is a day for the practical training before the state exam:

You will prepare cavities and make some fillings

Class II. MO for composite in 1st maxillary molar.

Class II. MOD for composite in the 1st mandibulary molar

Class II. for composit in 2nd mandibulary premolar OD

Class III. in 1st maxilary incisor mesially and distally, fillings

Class V. for composite in 1st maxillary incisor, filling

Class V. for GIC in 1.st maxillary molar, filling

On Wednesday the practical part of the exam will be performed. You will choose the question. Its part is the preparation of the cavity acc. to the choosen question and endodontic treatment. This endodontic treatment will be made in the first maxillary molar (Biovoxel). The third part of this exam is written description of the endodontic treatment in the patient with certain diagnosis (e.g. periodontitis chronica diffusa). And short discussion afterwards.

Clinical training and clinical part of the state exam

You will work with pasienst as usually. One patient will be a patient for the state exam – the teachers will tell you. In this patient you will perform the complex investigation and suggest the therapeutical plan. You will fill the documentation and treat the patient acc to instructions. Other time will be spent in practical training in SIMU and the Department of Stomatology. With exception the „state exam“ you must perform 1 treatment and 1 investigation and 2 assistences. (assistance during the state exam included).

Ypu need to buy:

Teeth 36 or 46 , 16 or 26,35 or 45, 11 or 21.

For the endo state exam buy 1st maxillary molar (Biovoxel). The tooth for preparation of the cavity for state exam you can buy in SIMU. (Cash payment only). You should have also endo instruments (not to old, buy ev. new) and paper and gutta cones.

Topics for the practical state sxam will be uploaded on is muni.
