

Please put the verbs in the gaps into the correct passive tense.

It *report* as recently as this morning that Brno *invade* by countless numbers of highly unintelligent English tourists bent on causing turmoil on the city street's by drinking heavily among other activities. These "people", who *not sent* here by the British government, are unfortunately going to be able to stay indefinitely. Locals residents *warn* by the local government of the imminent attack but their worries and concerns *ignore* by the Mayor (ODS). A statement *release* this morning from the mayor's office saying that the British tourists *misrepresent* currently in the media and that they *welcome* with open arms until their money runs out. Kombajnka Toaletníbábková, a 81 year old resident of one of the most impoverished neighborhoods in Brno, *quote* as saying from her modest flat atop Naměstí Svobody that "I *attacked and almost rape* over 60 times just in the last four months, although one of those times it was a homeless dachshund. Usually, at first I hear sounds of strange foreign voices. Various types of German speakers *see* in the area at the time of the attacks, but it wasn't until I saw their teeth, that I realized that they were, in fact, from England. I am astounded that nothing *do* about this scourge on our city by the Mayor. He should *shot!*" More on this story *report* as new information arrives.

answers... NO PEAKING.

has been reported

is going to be invaded

have not been sent
