Fyzická geografie je o přírodě a jejím vlivu na život člověka.

Scioekonomická geografie je o lidech a jejich vlivu na přírodu.

Geografie samotná je o vzájemných vztazích člověka a přírody na Zemi.

SELECT A SUB CAMPAIGN

Over the last seven and a half months of 2006, Dan Raven-Ellison and David Rayner campaigned tirelessly to highlight the neglect of geography by name in the UK media and to increase public awareness of the importance of the subject.

In 2007 the GGIP Action Committee were elected to continue the campaign.

## Guerrilla Geography in London

The GGiP Campaign had two key aims:

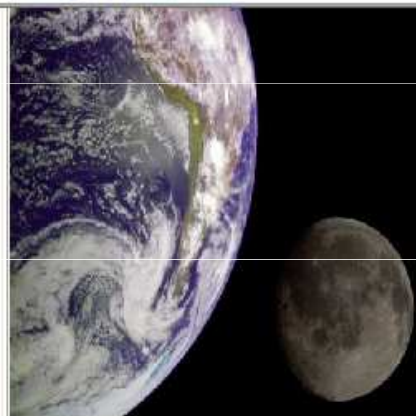

1. To raise the profile of **Geography** in all forms of the UK media (newspapers, magazines, the internet, tv, radio, advertising, etc).
2. To increase awareness of the importance of **Geography** and the vital role that it plays in schools, colleges and universities in preparing young people for life in the 21st century.

The GGIP have been in contact with Dr Iain Stewart who will present the program and Phil Dolling who is Executive Producer of the series. Both Iain and Phil have been very supportive of our views with Phil stating that the series will be "a feast of Geography". However it is our concern how much the "G" word will be used and the GGIP, arecurrently in communication with Iain to work on when the word should be used.

We wait to hear on the outcome. Read more [here](#).

## GEOGRAPHY IN BOOKSHOPS

Monday 4th June Geography will be given its place in bookshops.

In your local bookshop take a look around, do they have a Geography section? If so, what types of books does it include? How long is the section? Are the Geography books in a section called "Geography"?

Find out how you can get involved [here](#)
