  - ▶ Music provides a foundation for learning
  - ▶ Music promotes physical and mental health
  - ▶ Music makes us happy
- 

# Define the word: Music

- ▶ Birds and whales sing
- ▶ Nature's music: a rain storm
- ▶ Stomp, is this a musical performance?
- ▶ <https://www.youtube.com/watch?v=tZ7aYQtldg>
- ▶ Music is a form of communication used to understand and express thoughts and feelings. Music is not limited by words. The goal of music is not limited to sending and receiving information, but it is expanded to giving beauty through sounds.

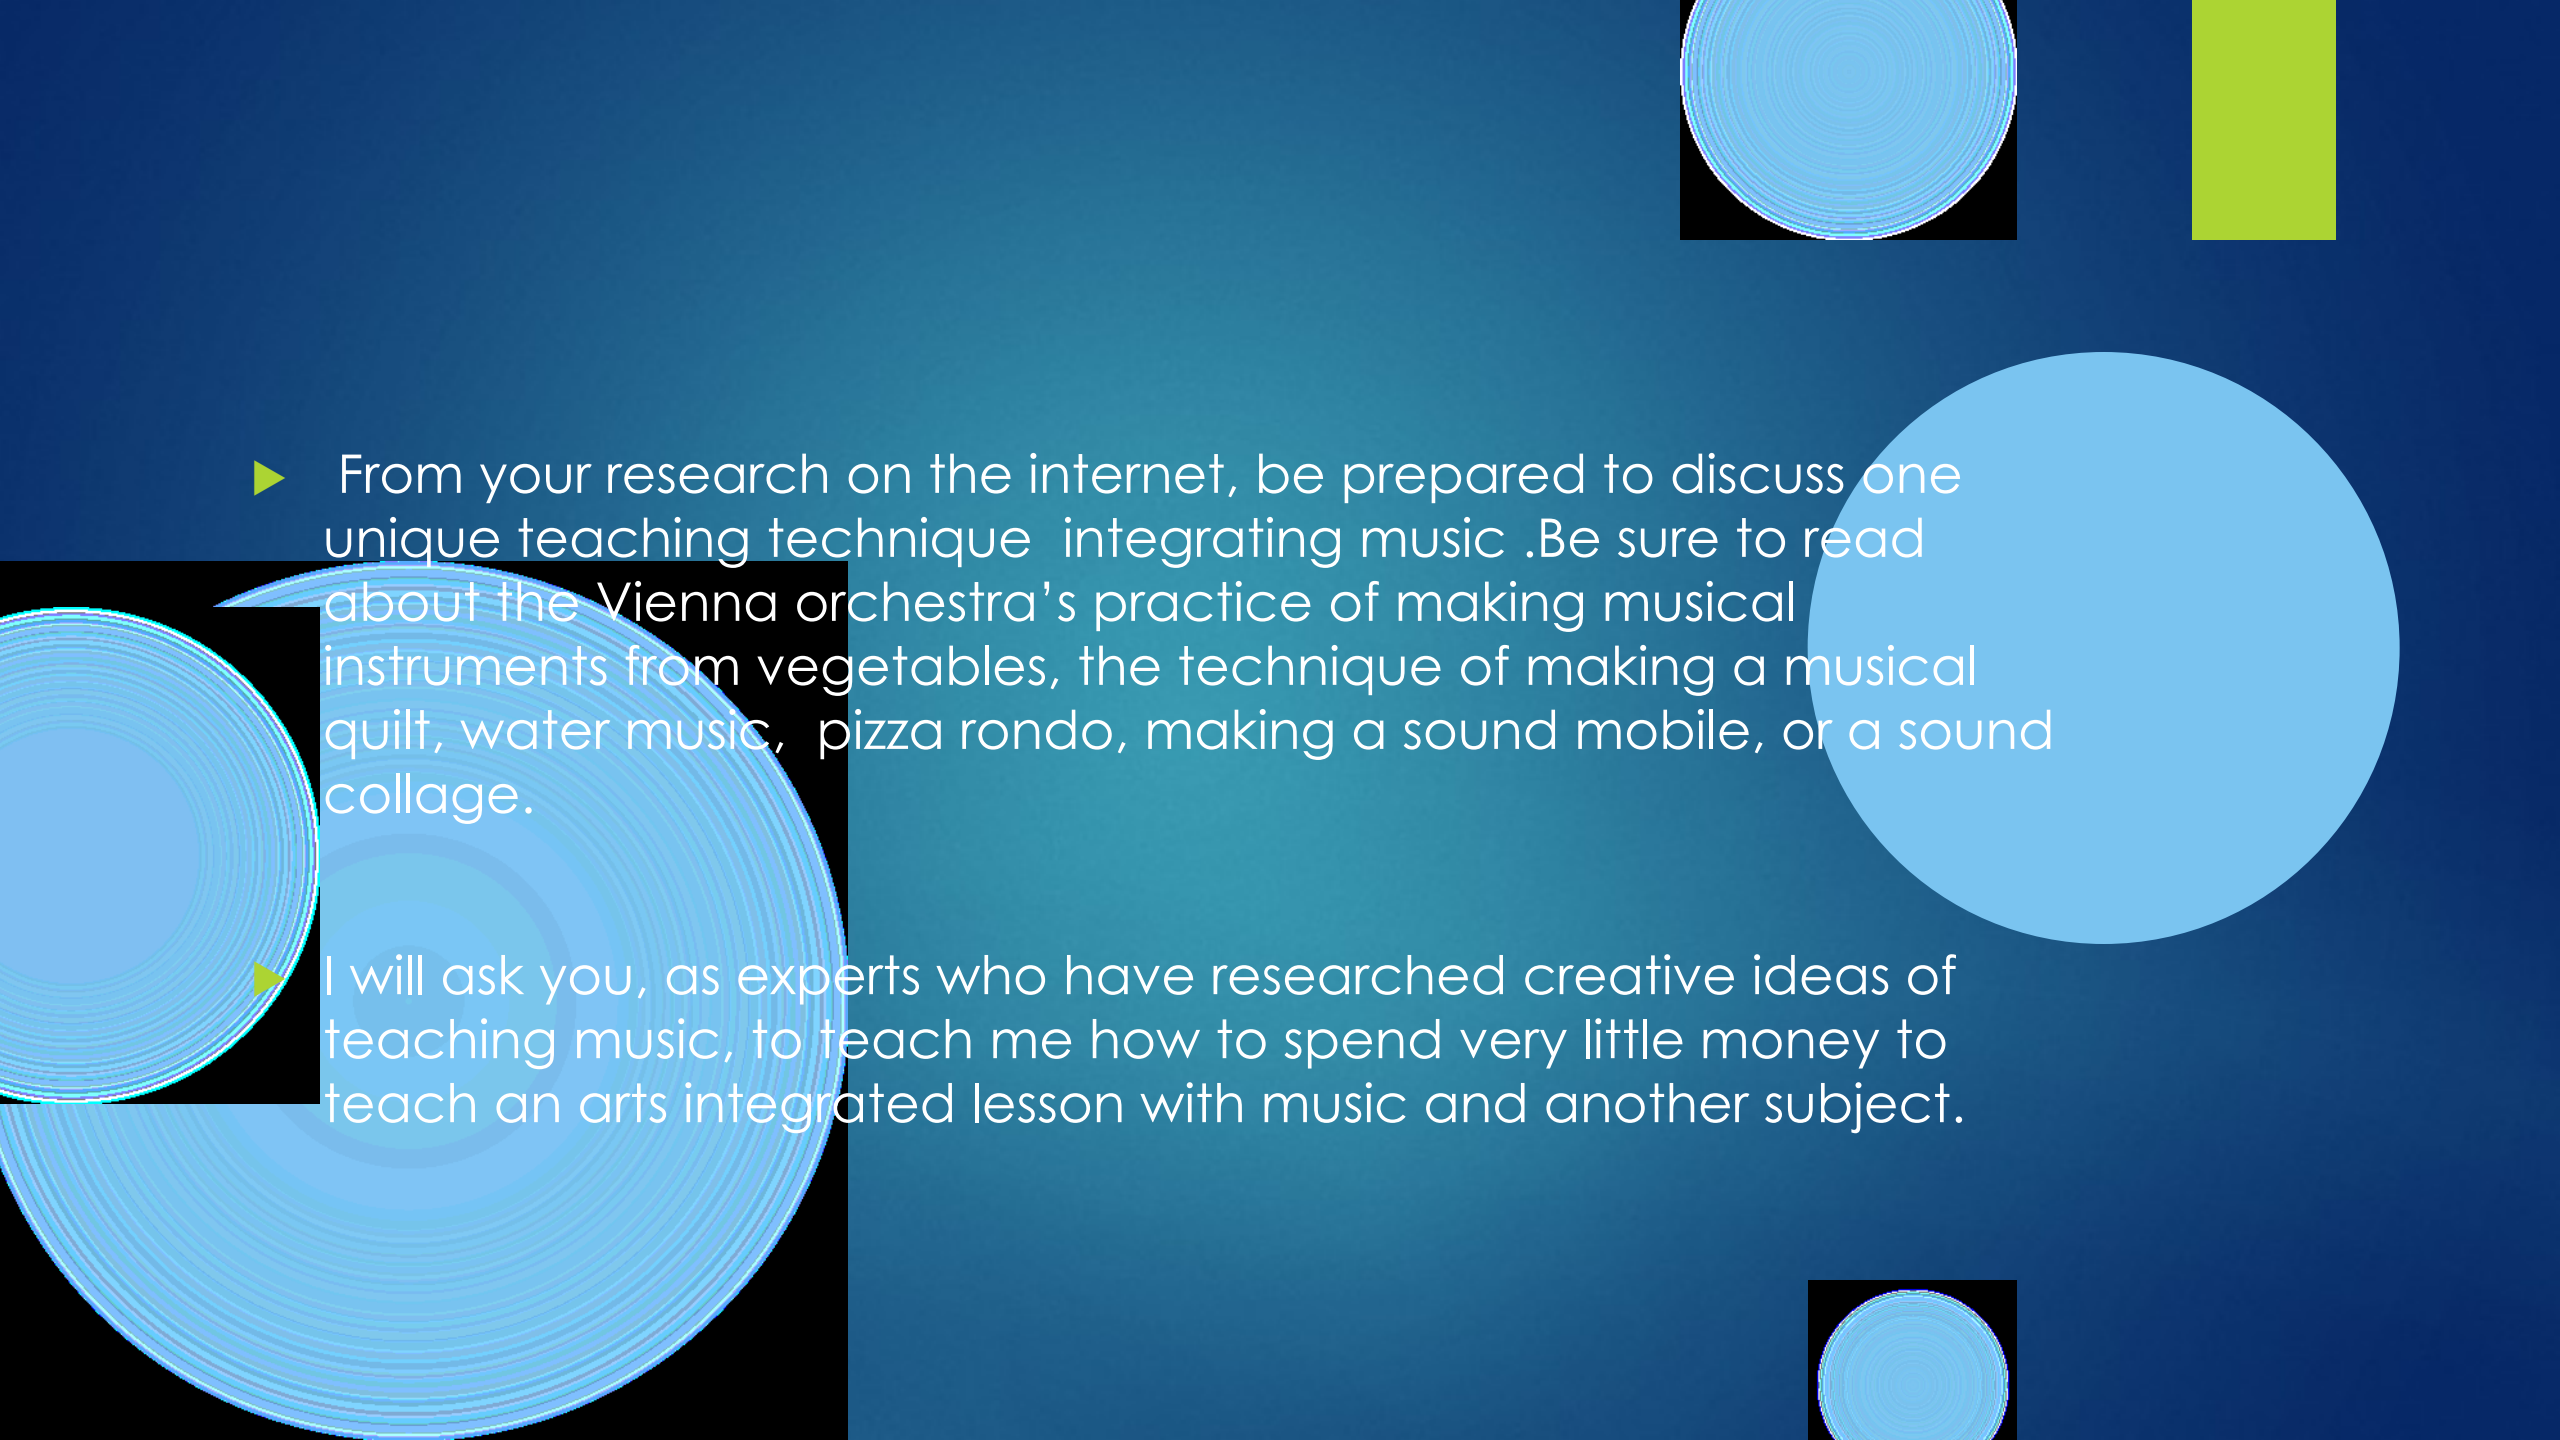

# Best teaching practices using Music

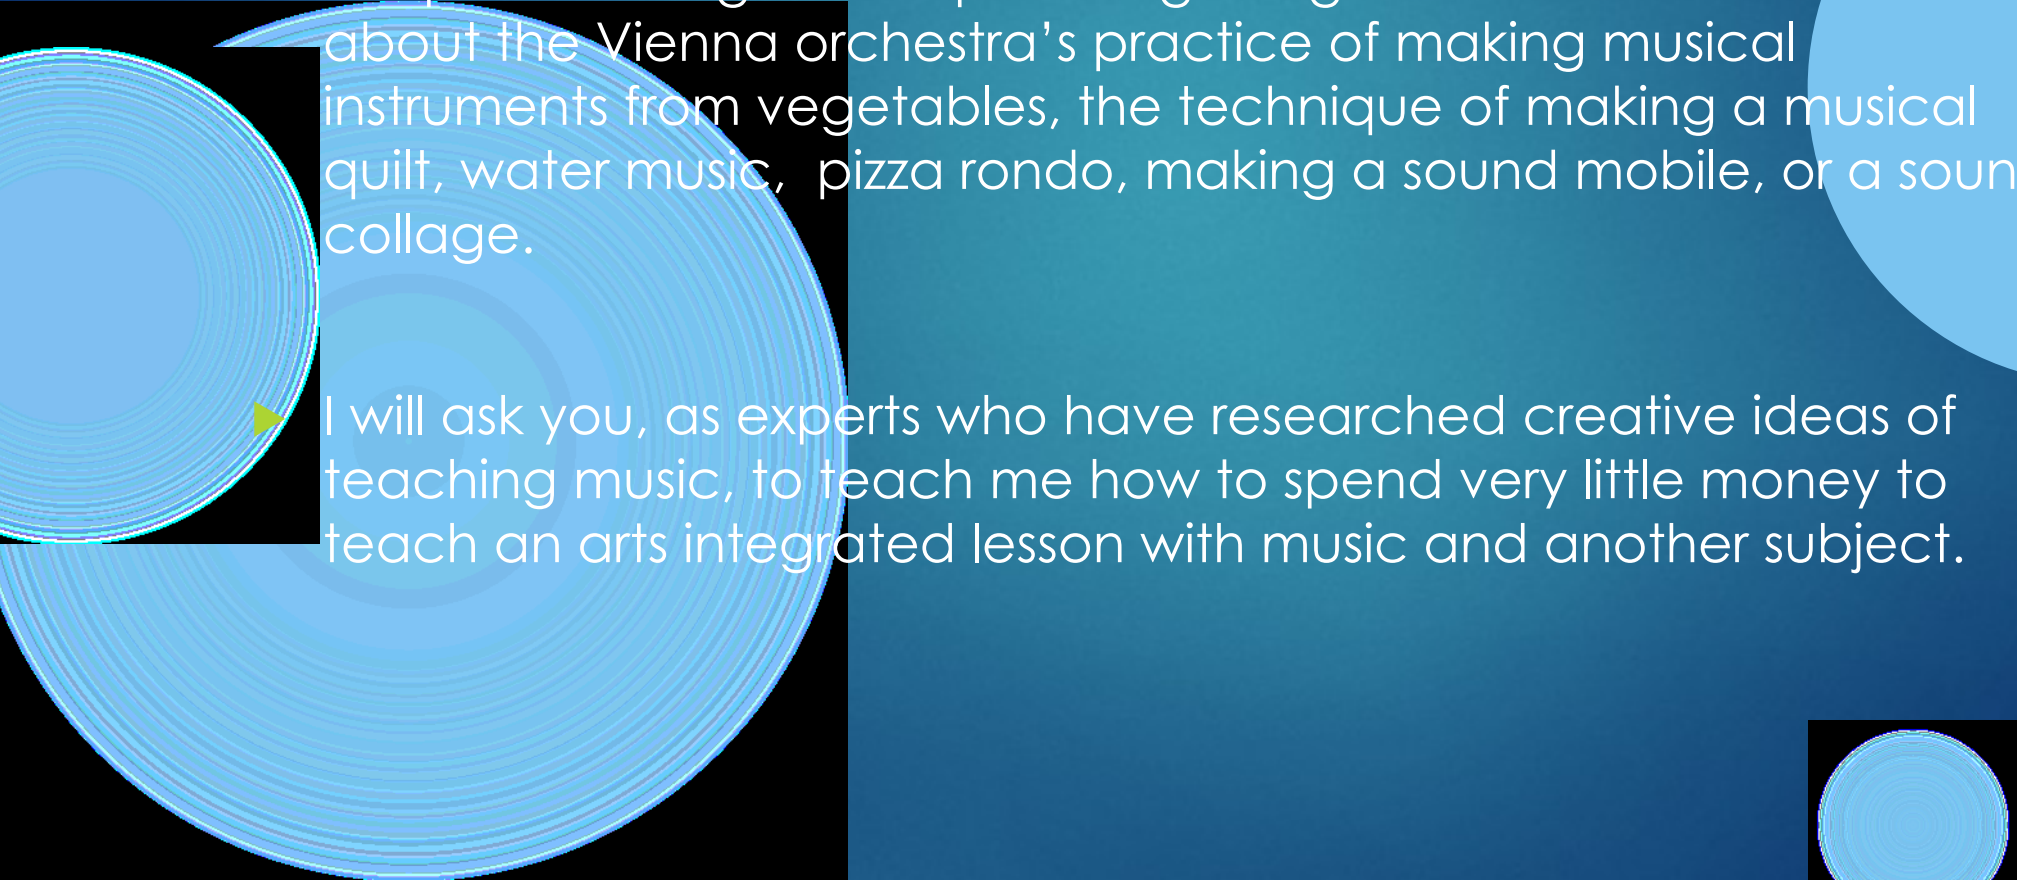

- ▶ Connect music to everyday life. Your phone ,iPod, computer, radio, hums, and whistles of the people around us.
- ▶ Teach children to make and respond to music. Instruments? Make them.
- ▶ Research indicates that background music has a positive temporary effect on student learning. For a greater positive effect on learning, students need to learn the literacy of music. This means the classroom teacher and the music teacher need to collaborate to teach reading and writing music.

# Your challenge

- ▶ With the materials I brought for you, make a musical instrument and be able to demonstrate how to “play” your instrument as well as how you can use it in a lesson integrated with another subject.

- 
- ▶ From your research on the internet, be prepared to discuss one unique teaching technique integrating music .Be sure to read about the Vienna orchestra's practice of making musical instruments from vegetables, the technique of making a musical quilt, water music, pizza rondo, making a sound mobile, or a sound collage.

▶ I will ask you, as experts who have researched creative ideas of teaching music, to teach me how to spend very little money to teach an arts integrated lesson with music and another subject.
