EuDaMus Song

Lyrics & Music by Bert Appermont

Introduction

This song is composed for the **European Day of Music** in Schools. This day will be organized each year on the 15th of March. During the week of 15 March, schools and children in the whole of Europe are invited to sing, play and dance (to) this song. It is commissioned by **EAS**, the **European Association of Music in Schools**.

The lyrics are inspired by words and phrases of children from different European countries.

There are 2 versions: of the song:

- Version 1 is meant to be sung by children between the age of 3 and 12 years.
- Version 2 is meant to be sung by children older than 12 or choirs of all possible ages.

Both versions can be used simultaneously, for example verse 1 can be sung by primary school children and verse 2 by secondary school children.

There are many performance options:

The last chorus can be sung or played as a canon with different groups starting to sing one after another each other. It is also possible to repeat the same 8 bars of chorus 1.

Soloists can sing the verse or bridge (rap), instruments can be added... There is a version of the chorus for orff-instruments and Instrumental parts of the canon are provided in different transpositions.

When you want to take part in making a video montage of the song, it is best to use the provided backing track as an accompaniment. The stable tempo and similar sound will help to edit the various clips and create a successful compilation.
