

ISO17799 NEWS

Dangers range from inadequate virus protection on a laptop or home computer, to the risk of confidential data being exposed to:

RISK ANALYSIS: You do not have to implement every control covered by ISO17799 - only those that are applicable and appropriate, the latter largely being determined via risk analysis.

A survey of the leading companies in 12 countries, undertaken by accounting firm KPMG, concluded that almost 10% had experienced a

An Information Security incident must be reported to outside authorities

News & Views on the ISO/IEC Security Standard

Risk analysis goes hand in hand with ISO17799 compliance. Consultant helps you measure and manage the compliance process eg: disaster recovery audit.

Having a security policy document (or dusting down an old one) may well not be enough and is fully supportive of ISO17799. Much of the confusion stems from the fact that earlier edition of BS7799 (which preceded ISO17799) did have some differences. However, this is no longer the case - buy one and you effectively buy both. Section 3.1 of ISO17799 states that "Management should set a clear policy direction and demonstrate support for, and commitment to, information security through the use and maintenance of

A comprehensive pre-written set of ISO17799 compliant and cross-linked security policies. Finding good source material for this is not always straightforward... hopefully the ISO17799 Newsletter can help. Although there is a myriad of sites on this topic, we have produced one which explains the theory and basic methodology for most major approaches. One recommendation worth contemplating with respect to risk: establish the relationship between risk analysis and compliance with security policy (and indeed with the

The first edition of ISO17799 News prompted a number of questions related to resources to help achieve compliance or certification. The following have therefore been identified as leading players for the various topics:

ISO17799 RESOURCES

The policy set is supplied in MS Word format, enabling full editing to meet individual corporate needs.

Hamm (dpa/Renta) Als sechster Kanzler der Bundesrepublik ist der CDU-Vorstand Helmut Kohl am Freitag vor dem Bundestag vereidigt worden. Das Parlament hat ihm mit 417 zu 147 Stimmen vertraut. Nachdem die Parteien der CDU/CSU und der FDP gestimmt und damit Helmut Schmidt nach achtjähriger Amtszeit abgewählt hatten, wurde der neue Kanzler vereidigt. Die Amtseinführung ist damit durch ein Minderheitsvotum nach Artikel 67 des Grundgesetzes ein unerwarteter und ungewöhnlicher Vorgang. Der Wahlgang war am 25. April 1982 abgehalten worden. Am 25. April 1982 war ein entsprechender Vorschlag des damaligen CDU-Vorsitzenden Helmut Kohl in der Abstimmung gescheitert. Nach der Wahl ernannte Bundespräsident Karl Carstens Kohl zum neuen Kanzler und schickte ihn am 26. April 1982 in sein Amt und ernannte Kohl zum neuen Bundeskanzler. Das neue Kabinett wird am Montag vorgestellt und vereidigt.

Unstrittige Äußerung Frau Hamm-Brüchers
