

PEER-REVIEW INSTRUCTIONS (REPORT)

- **Watch the other two assigned videos** (without subtitles) and **identify the main ideas**.
- Read the reports you are reviewing. **Which** ideas in the reports did you identify as the main ones?
- How **clear** was the report? Was it easy or difficult to follow? Why?
- Think about the **solutions** suggested in the reports. Do you **agree** with them? Do you have some **other ideas** for solutions?
- Prepare **separate feedback commentaries** for the two students whose work you have reviewed. Comment on both strengths and weaknesses. Also, **add your comment** on their suggested solutions.
- **Record** your feedback commentaries (your feedback + commentary on the solution) and upload them into the respective **forum** in the interactive syllabus.

In your feedback commentaries, you need to comment on the following aspects of the reports:

1) Task fulfilment

The report presents 5 key points mentioned in the video.

2) Relevance

The points included in the report are highly significant.

3) Accuracy

The report presents the points accurately (without distorting the facts).

4) Structure

The report has the required structure (introduction, summary of the problem, possible complications, suggested solution, conclusion).

5) Clarity

The report was clear and easy to follow.

Useful language

Giving a formal appraisal:

Overall ... / In general ...

You seem to have (done) it very well.

One of the key strengths is ...

Perhaps one thing to work on / consider is ...

One thing I wanted to mention is ...

I think that ... is an area that might need some improvement.

Encouraging self-evaluation:

Have you thought about ...?

What do you think would help you to ...?

Is this an area you would like to develop?

Discussing progress:

You have already (done) ...

You haven't done ... yet.

Encouraging people:

Well done!

It's a start.

Great work.

That has potential.
