

# LESSON PLANNING

## - OBJECTIVES

- the aims of the lesson
- should answer what students will be capable of doing by the end of the lesson
- should be specific and explicit (the students will be able to identify/explain/create/name/use...

## - PROCEDURE

- makes up the body of the lesson plan
- explains how the lesson will progress
- includes the methods, strategies and activities which will be used to reach the aims of the lesson

## - EVALUATION

- serves to find out if the aims of the lesson were reached (tools – tests, performance tasks, discussion, self evaluation...)
- should provide the teacher with the feedback about his/her effectiveness
- should provide the students with the feedback about their learning progress
