

# FAFP2 Pharmaceutical care II

Academic year 2019/2020

The following topics will be included in the exam test. Please study all the lectures and seminars that have been put into the Moodle course.

Because you have handled individual case studies in the form of self-study carefully, case studies will not be included in the exam test.

On-line test *instructions* will be placed in Moodle course.

## Questions to exam (on-line test):

1. Vaccination and the role of the pharmacist
2. Diabetes mellitus - oral antidiabetics, insulins
3. Pharmaceutical care in sleep disorders – insomnia, snoring
4. Pharmaceutical care in patients with arterial hypertension, blood pressure measurement
5. Pharmaceutical care in patients with anticoagulants – warfarin, new oral anticoagulants (NOACs)
