

Exam test structure:

WRITTEN PART:

1. Fill in missing endings: Sanatio fractur- complicat- (fracturae complicatae)
2. Translate: E-L: coated pills in a box– (pillulae obductae in scatula)
3. Match the words: charta – paper
4. Analyse given words, determine the prefix, main part and suffix and translate. E.g. exsanguinatio: ex – out, sanguis – blood, -tio – result of and action : bleeding to death
5. Make compound words from the given parts with the given meaning: tachys + cardia – faster cardiac action: tachycardia
6. Write the following abbreviations in full and translate: M.F. sol. – misce fiat solutio – (mix, solution should be made)

ORAL PART:

Grammar analysis based on the written part- e.g. change to plural, use the word after a preposition, give an expression with an opposite meaning.

7. Read a medical prescription.
