

U3 notes

Species= species, kind of something

= mix of herbs= tea – in this context it's always in plural!

e.g. species urologicae – tea for urological problems

species pectorales – tea for cough

species cholagogae – tea for problems with digestion

!!! (vaccinum) myrtillus = blueberry

!!manus (hand), acus (needle), quercus (oak) = FEMININES

All the other nouns like processus = masculines
