

U4 NOTES

In + 4 = direction – into: in lagoenam = into a bottle

In + 6 = place – in: in lagoena = in a bottle

Species= PL = tea + adjective in plural

COMPARISON OF ADJECTIVES

COMPARATIVES ARE MADE FROM THE GENITIVE STEM:

Longus, gen = **long-** i

Brevis, gen = **brev-** is

Acer, gen= **acr-**is

SUPERLATIVES ARE MADE FROM EITHER THE GENITIVE STEM OR NOMINATIVE OF MASCULINES

e.g. **long** -issimus, a, um

!! adjectives ending in -er (in the basic form=1st case sg) make superlatives from masculine nominative using an ending **-rimus** : acer + rimus, a, um

Comparatives are declined like 3rd declension consonant stems:

M+F line **dolor**, N like **corpus**

4 adjectives make superlative using the ending -limus:

Similis, dissimilis, facilis, difficilis: superlatives= simillimus,a,um; dissimillimus,a,um; facillimus,a,um; difficillimus,a,um
