

U2 notes

Information from vocabulary:

E.g.

Aqua = basic form

-ae = second form (genitive) = aquae

F = feminine

All words having the endings -a in the first form and -ae in the second form will belong to the example /model word/ **gutta**

Form no. 1 (nominative) is used at the very beginning = subject

Form number 2 (genitive) is used in the second position and further (in English we say/use the preposition OF)

Forms no. 4+6 are ONLY used after prepositions

Nouns relate to things + people, in terminology parts of human body, medical terms, disorders, diseases

Adjectives relate to qualities e.g. big, long, white, serious...
