ensemble of its physical  
properties

# East Front of the Louvre

It belongs to the classical style

# Its style is French

# The East front is Baroque

It is the style of Perrault

# History of bronzes

“It is a widely held belief that art expresses its time, and that meaningful parallels of the same period can be found between the art and the culture of the same period can be found.”

In fact, he says, the style of a work “corresponds to no given objective reality supplied by the time or its character or spirit.”
