

RANÁ DOBA BRONZOVÁ

Klb_105

EA (Early Anatolian) – EL (Early Levantine) – EM (Early Mesopotamian)* Cultural Horizon Table**, v. 5.4.6

The regional phases or sub-phases reflect changes in the material culture (predominantly ceramics), and/or the level of urbanisation, and refer to the comparative stratigraphy of chronological benchmarks, at a regional and inter-regional level. Use of the same colour denotes the existence of strong cultural links or parallel phenomena between neighbouring regions.

The absolute dates are based on the harmonised radiocarbon data.

E: Early; CY: Cyprus, WA: Western Anatolia, CA: Central Anatolia, SL: Southern Levant, CL: Central Levant, NL: Northern Levant, ME: Middle Euphrates, UE: Upper Euphrates, JZ: Jezirah, TG: Tigris Region, SM: Southern Mesopotamia, CM: Central Mesopotamia, WI: Western Iran.

* EM: Early Mesopotamian (transit) for WA ** EA, EL, EM & EME are labels proposed by M. Lebeau and adopted by the ANANE community at the Bonn final meeting on December 9-11, 2011.
