Black, Brown and Beige was premiered in Carnegie Hall on January 23, 1943. At that time, jazz concerts were not the common occurrences they are today. Although Duke Ellington and his orchestra had appeared on stage at the Fulton Theatre in a program with Maurice Chevalier as early as 1930, and in fully fledged concerts in London and Paris in 1933 and 1939, the only precedent for jazz at Carnegie Hall had been the Benny Goodman and Spirituals To Swing concerts in 1938.

Ellington's reputation as a composer had grown to an extent that distinguished him from all the other bandleaders, and there was an insidious pressure upon him to produce *bigger* works. To the more commercial minds in the music business, *bigger* would undoubtedly be *better* in terms of prestige, and jazz would also be seen as challenging the *bigger* forms of symphonic music. This kind of thinking had dogged jazz from the early days of Paul Whiteman, when "symphonic jazz" enjoyed a considerable vogue. A sense of inferiority had been inculcated by the variously disparaging and patronizing opinions expressed by the critical establishing in the press. Invidious comparisons were constantly drawn between the young, goodtime music of ballrooms and nightclubs on the one hand, and with the high art of a concert music backed with centuries of European tradition on the other. In effect, Ellington was now set up as the David of jazz to challenge the Goliath of "classical" music.

In the '30s, he had written compositions that required in one case two sides of a 78 record, in another four. His manager, Irving Mills, had come to Chicago one day in 1930 to tell him that a rhapsody was to be premiered next day. "Okay," Ellington said, and wrote *Creole Rhapsody* overnight. In his autobiography, *Music Is My Mistress*, he explained, "This was the seed from which all kinds of extended works later grew."

PRODUCER DUKE ELLINGTON

This is one in a series of ten albums that, taken together, is the definitive collection of the significant compositions written by Duke Ellington and some other songs long associated with his body of work. These recordings were personally produced by Duke Ellington himself and have remained in his private collection since their completion. Documenting a large portion of his musical work, some of which had never been commercially released, these private recordings are being made available to the public by Ellington's family for the first time.

These classic recordings have been transferred to digital from their original analog form. To keep as close to the original sound as possible, the best equipment has been utilized.

While Duke Ellington died a few months after establishing his final recording affiliation with the then-fledgling Pablo label, the ensuing years saw Pablo assemble one of the richest Ellington catalogs, containing important previously unissued works. This album of three suites is among the greatest treasures of posthumous Ellingtonia. The 1959 suite for Queen Elizabeth is an Ellington/Strayhorn gem from one of the band's richest epochs, and contains such dazzling evocations of nature as the regal "The Single Petal of a Rose" and blue-tinged "Sunset and the Mockingbird." The later *Goutelas* and *Uwis* suites, inspired by a French chateau and an American campus, respectively, give an international cast to Duke's always-universal vision.
