

Proportio dupla

C2, C, O2

C  $\square \square$   $\frac{2}{1}$   $\square \square \square \square$   $\rightarrow$   $\frac{2}{4}$   $\downarrow \downarrow$   $\rightarrow$   $\frac{2}{4}$   $\downarrow \downarrow$

*(Note: The first two squares have a '1L' below them, and the next four have a '2L' below them. The musical notation shows two quarter notes in 2/4 time.)*

Pozn.  
Semibrevis v proportio dupla má poloviční metrickou hodnotu semibrevis v integer valor.

*(Note: The first two squares have a '1L' below them, and the next six have a '2L' below them. The musical notation shows quarter notes in 2/4 and 3/4 time, and eighth notes in 6/8 and 9/8 time.)*

Pozn.:  
1) Semibrevis v proportio tripla má třetinovou metrickou hodnotu semibrevis v integer valor  
2) Na rozdíl od proportio dupla dochází v proportio tripla ke změně taktu.
