

“Instruction”

Each presentation is scheduled for not less than 45 minutes and not more than 1,5 ha. Please, try to synthesize. Please, provide me with a name list of all speakers with their presentations till the end of November (through L. Valaskova)

Focus on pottery and illustrations, with other things such as historical background given just in general; present general picture without going into details (just be aware of them). Your presentation will be the basis for further discussion and comparisons. You can present not only important, but also interesting or unusual pieces. You will find optional material for illustrations in “Pictures” file and “BAH180-habur” file.

For these, who will attend Mesopotamian seminar for the first time, I recommend to choose topic on “Khabur ware pottery” and presentation based on material from the Diyala Region published by P. Delougaz, as they are quite consistent and easier to understand.
