

How do I record my feedback for Masaryk students?

1) Go to www.mailvu.com

The screenshot shows the mailVU website header with the logo and navigation links: HOME, PRODUCTS & PRICING, ABOUT US, SIGN UP, LOGIN. Below the header is the slogan "Unleash the Power of Video with the Simplicity of Email." The main content area features a "Try it FREE!" section with three steps: 1 Click, 2 Record, 3 Send. To the right is a video recording interface with buttons for "Grabar" (Record), "Ver" (Preview), "Enviar" (Send), and "Compartir" (Share). A red circle highlights the "Permitir" (Allow) button in a system dialog box that appears over the interface. Below the main content are three account options: BASIC ACCOUNT, BUSINESS ACCOUNT (highlighted in blue), and BUSINESS PRO ACCOUNT. To the right are service options: Video Contest Service, Video API Service, and Private Label Service. At the bottom right, there are social media follow buttons for Facebook (2.2k likes), Google+ (396 followers), and Twitter (1,865 followers).

2) Click on "Permitir" to allow your camera to record your reply.

3) Your camera will be turned on and you'll see yourself on the screen.

This screenshot shows the same mailVU website interface as the previous one, but now the camera is active, and a woman is visible in the video window. The "Grabar" button is highlighted with a red circle. The "Permitir" dialog box is no longer present. The rest of the page layout, including the account options and social media links, remains the same.

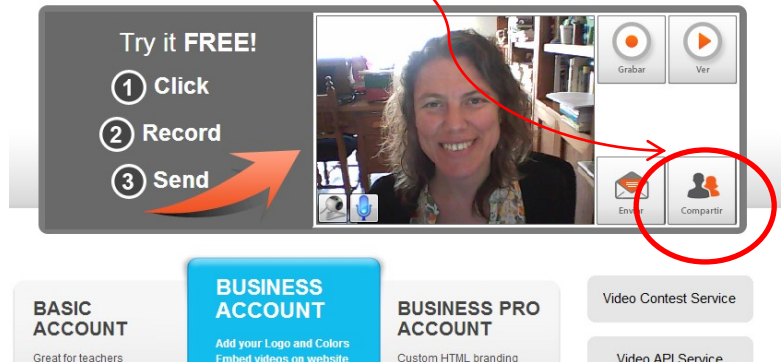

4) Click on "Grabar" and the camera will start recording.

5) Once you finish recording, click on "Stop".

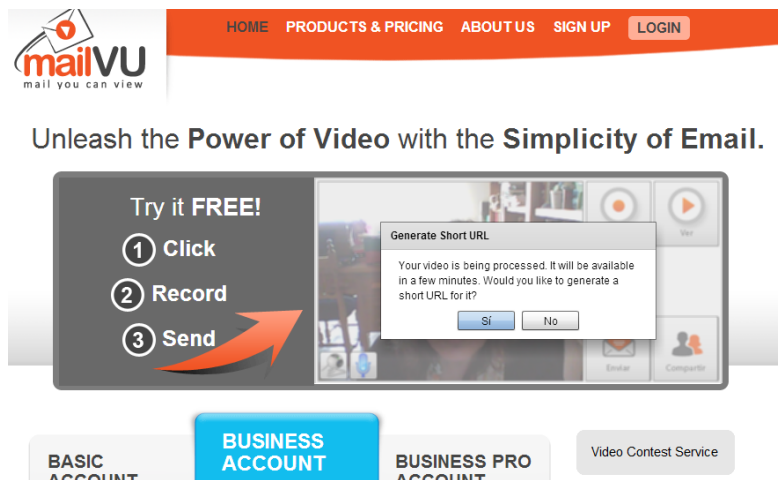

6) You can preview the video by just clicking "Ver".

- 7) If you are not happy with the result, you can record the video as many times as you like. Once you are satisfied with your work, just click on “Compartir”

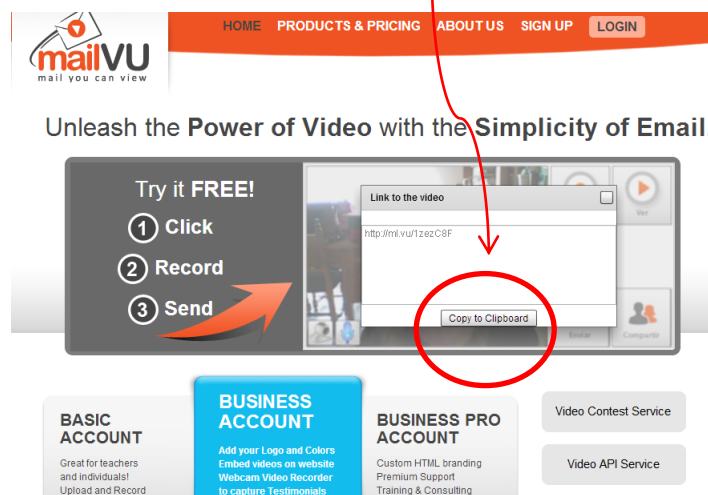

Unleash the **Power of Video** with the **Simplicity of Email**.

- 8) A box will appear. Click on “Sí”

- 9) Another box will appear that contains an URL. Click on “Copy to Clipboard”

- 10) Open the discussion forum thread “ARGENTINIAN LINK: VIDEOS and upload your video there by simply pressing Ctrl + V.

THANK YOU VERY MUCH FOR PARTICIPATING IN THIS PROJECT!
