

# Study protocol

## **Project title**

## **Investigators**

Name of principal investigator<sup>x</sup>

and

Collaborators<sup>x</sup>

<sup>x</sup>Affiliations of researchers

## **Theoretical background and research aims**

Previous work and area of research (max. 1 page)

## **Research questions and Predictions**

- 
- 
- 
- 

(bulleted list)

## **Method**

General description of the method, experimental/control conditions to be used (max. 1 paragraph)

## **Stimuli/Materials**

Description of proposed stimuli and material, possible to attach as separate file (max. 1 paragraph)

## **Setting**

Description of required testing conditions (max. 1 paragraph)

## **Subjects**

- 

**Masarykova univerzita, Filozofická fakulta, HUME lab**

Arna Nováka 1/1, 602 00 Brno, Česká republika  
T: +420 549 49 8991, E: [hume.lab@phil.muni.cz](mailto:hume.lab@phil.muni.cz), [www.phil.muni.cz/hume](http://www.phil.muni.cz/hume)

- 
- 
- 

(bulleted list – number, source and recruitment plan, age, specific populations)

### **Procedure**

Detailed technical description of the procedure of the proposed research

### **Measures**

Proposed measures to be used in the proposed research, possible to attach as separate file (e.g. questionnaires)

### **Proposed dates of execution of research**

### **Appendices**

- Information and instructions for participants
- Informed consent form
- (Experimental materials and stimuli, questionnaires, etc.)

### **References**
