	01:05:14	JEFF HOXIE VO/OC Yeah, you don't have a lot. And it's a basement so it's a little tough.
	01:05:17	MIKE OC Yes, yes.
	01:05:18	JEFF HOXIE VO Okay.
	01:05:18	MIKE OC But anyway we can just make it more of a outdoorsy, kind of natury cabin type feel. That would probably make me most at home.

	01:05:36	JEFF HOXIE OC Oh, that kind of goes the wrong way, doesn't it?
	01:05:37	MELISSA VO/OC Yeah. So if we could give a little more space to do laundry that would be great or move it. I don't really care.
	01:05:46	JEFF HOXIE OC You have the space down here. It's just, it isn't set up well.
MS JEFF HOXIE & DAVE MS SPACE TO BE REMODELED	01:05:49	JEFF HOXIE OC The biggest challenge in this basement is coming up with a functional space but keeping costs down. Moving appliances means moving, venting and plumbing which means busting up concrete which all costs time and money. We're going to have to get creative.
MS CURRENT BATHROOM & LAUNDRY SPACE MS MELISSA MS DAVE MS JEFF HOXIE	01:06:04	JEFF HOXIE VO Because moving all this stuff around could add 5,000 dollars onto a budget that right now is already in the neighborhood of 10,000 dollars.
	01:06:10	MELISSA OC As long as he's happy. That's all I care about.
	01:06:12	DAVE OC That's what we like to hear.
	01:06:15	JEFF HOXIE OC Let's throw some plans together and we'll be in touch.

MS BATHROOM WISH LIST	01:06:18	JEFF HOXIE VO In this bathroom we're adding style and function. For the look, we're going to bring the outdoors inside and add some light. As far as function, Mike needs a shower that he can fit in and no man should ever have to sit sideways on his throne. We're going to give Mike some legroom. And for Melissa's sake, we're going to move the laundry to its own space.

	01:06:51	JEFF HOXIE VO Wasted cabinets.
	01:06:52	DAVE VO/OC Cabinet stuff. So basically, we know this is a low budget deal. We want to do it quick. So that means we really don't want to move any plumbing.
	01:07:00	JEFF HOXIE VO/OC Yeah. I mean it's not easy to move plumbing in basements so we can avoid that, but still separate the laundry from the bathroom.
	01:07:05	DAVE OC Right.
	01:07:05	JEFF HOXIE OC/VO The laundry is easy to move. Toilet is not easy to move. Either is the shower drain. So if we switch laundry with vanity, you have a door we separate with a wall. You have another door so it creates two rectangle rooms instead of an L.
	01:07:18	AMANDA VO Un-huh.
	01:07:19	JEFF HOXIE VO/OC We flop those. That's kind of our general layout. Nice cabin feel tied in with what they have upstairs and bring in that cabin, outdoorsy feeling.
	01:07:27	AMANDA OC Well we could look at hanging some plants from the ceiling and make it a jungle cabin.

When you're taking down a wall, you have to make sure it's not a load bearing wall or otherwise the upstairs could become the downstairs. I know this isn't a load bearing wall for two reasons. One, because the studs inside are two by twos. That's not going to hold anything up. Got a little two by two walls. Two, it's because load bearing walls are always situated under a horizontal joist or in this case an I-beam inside the mechanical room. So I know it's safe to proceed.

	01:20:47	JEFF HOXIE OC We're moving it. We got sheetrock on the ceiling. Everything's framed in, roughed in. Next step, we got to waterproof the floor. Can't tile without the floor poured, sloped in ready to drain. Everything going out.

	01:21:15	So this is the most important step when doing a custom tiled shower. Tile leaks. Grout leaks. This is what keeps the water from getting into the rest of your house.

	01:21:28	JEFF HOXIE OC/VO <b>DUROCK</b> is a tile backer. It's just pressed cement in a sheet form. Now we're going to run our DUROCK down to the floor. The tile goes over the DUROCK and water gets through the DUROCK and runs down over onto our pan. It all follows down to the drain. I'm in.

	01:21:55	JEFF HOXIE VO The shower floor's going in. The pre-slope is done. We got our PVC membrane in. The shower is water tight. Now Dave's going to mix me some mud and we're going to slope this floor so all the water runs right to the drain. Lots of grit, Dave. Do you know how you test your mud? You got to put it in a ball and it should stay. All right, let's dump it. That's a good drop. Little by little, we're pitching this floor right to the drain. And every once in a while I check it with a level and make sure I have the correct pitch.
	01:22:25	DAVE VO/OC That's <bleep> teamwork. It's one advantage to having long arms, un-huh, see? He can reach things. He doesn't have to move it around as much as the common, average height man.
	01:22:35	JEFF HOXIE VO <inaudible> to be so poetic.
	01:22:37	DAVE OC Yeah.
	01:22:38	JEFF HOXIE VO/OC And the last thing we want to check, just like the curb, it should slope to the shower drain. If water lands there, it should run back in and it shouldn't run out.

		So.
MS MIKE & MELISSA'S NEW BATHROOM MS MIKE, MELISSA, JEFF HOXIE & DAVE	01:33:22	MIKE OC/VO It looks very much like a cabin but like so modern, so functional.
	01:33:26	JEFF HOXIE VO And not to mention the white oak beams. A really nice touch. Kind of draws your eye up a little bit.
	01:33:32	DAVE VO/OC And we couldn't bring much more daylight down here with the one window.
	01:33:35	MELISSA VO Un-huh.
	01:33:36	DAVE OC But we did bring a little bit of night atmosphere to you, guys.
	01:33:40	JEFF HOXIE VO Yeah.

	01:43:29	STEVE OC Thanks. Appreciate it.
	01:43:30	JEFF HOXIE OC Yeah.
	01:43:32	DAVE VO Thanks, Steve.
MS KIM & STEVE	01:43:32	STEVE VO/OC It's tough letting go of the control because I wanted to be in there doing that work every single day because I built the house.
MS STEVE, KIM, JEFF HOXIE & DAVE	01:43:40	DAVE OC Enjoy, guys.

	01:43:41	KIM OC Thank you. Thank you.
MS KIM & STEVE	01:43:42	STEVE OC But the quality of the work is just outstanding.
MS KIM & STEVE	01:43:45	KIM OC See we can enjoy your tub. This is so exciting.
MS JEFF HOXIE & DAVE	01:43:49	JEFF HOXIE VO/OC I'm glad they love it. It was fun. I love that Asian feel. That was fun to bring in here.
	01:43:53	DAVE OC Yeah.
	01:43:53	JEFF HOXIE OC I'm ready to hit the road.

		Nice to meet you, sir.
	01:45:16	JEFF HOXIE OC Did you build this house?
	01:45:17	DAVE OC Yes, I did. Three years ago.
	01:45:18	JEFF HOXIE VO Really?
	01:45:18	DAVE OC My wife and I.
	01:45:19	JEFF HOXIE OC It's gorgeous out here. Let's see the inside.
	01:45:21	DAVE VO/OC All right. Come on in. This is our home.
	01:45:30	JEFF HOXIE VO/OC I love these natural timbers that frame out. I mean the kitchen, the stone arch. I mean it's just awesome.
	01:45:37	DAVE VO You can take all these natural elements.
	01:45:39	JEFF HOXIE OC What if I hit some road kill on the way home?
	01:45:42	DAVE OC Maybe we can.
	01:45:42	JEFF HOXIE OC We can mount it and put it in the bathroom.
	01:45:44	DAVE OC/VO I took some amateur taxidermy classes.
	01:45:46

		JEFF HOXIE VO Perfect.
	01:45:47	DAVE OC Amateur. But I could make this thing work, at least be smell free.
	01:45:50	JEFF HOXIE OC Cabins need dead animals on the wall.
	01:45:52	DAVE OC What else do you have for us? We've seen the great room. We are the King Of Thrones.
	01:45:57	JEFF HOXIE OC So, take us to the throne room.
	01:45:59	DAVE OC Hey, hey.
	01:45:59	JEFF HOXIE OC Oh, that's pretty cool.
	01:46:00	DAVE OC Look at this. Is that?
	01:46:03	DAVE VO That's a real, that's a real wood stump.
	01:46:04	DAVE OC Okay. So you just hollowed out the back side for the plumbing?
	01:46:07	DAVE VO Yeah.
	01:46:08	DAVE VO Hey, that's awesome.
	01:46:09	DAVE VO/OC Fit in very well in the small space. We're able to bring in kind of the feeling of more

		wood in with it, and.
	01:46:14	JEFF HOXIE OC Yeah, that cabin feeling tied in right there.
	01:46:16	DAVE VO/OC Yeah, it's fantastic. Very cool. And this is like kind of the inspiration I wanted to see.
	01:46:20	JEFF HOXIE OC Yeah. This is what you needed.
	01:46:22	DAVE OC Well I mean this will fit into our smaller bathroom. Hoxie, I got some grand ideas. I mean we've got a basement, a little dark. We've got this beautiful house with vaulted ceilings, tons of natural light. We've got to like take, fuse those two and make it like an urban cabin.
	01:46:36	JEFF HOXIE OC Well we appreciate the tour.
	01:46:38	DAVE VO Well, we're glad you came.
	01:46:38	JEFF HOXIE OC It's great.
	01:46:39	DAVE OC Yeah, absolutely. Thank you so much, Dave.
	01:46:40	DAVE OC Nice meeting you, Dave.
	01:46:41	DAVE OC Yes.
	01:46:42	DAVE OC Jeff, nice meeting you.

	01:46:53	KIM OC And I don't want any hairs <inaudible>.
	01:46:54	STEVE OC She gets mad when I trim the beard and do my nose hair thing.
	01:46:57	KIM OC He clips his toenails over the edge of the tub.
	01:47:00	STEVE OC I pick them out of there, well sometimes.
	01:47:02	JEFF HOXIE VO It's better than like on the couch.
	01:47:03	DAVE VO Yeah.
	01:47:04	KIM OC And I, I don't want to see the bathroom because he.
	01:47:07	STEVE OC The toilet.
	01:47:07	KIM OC He reads in the toilet.

	01:47:11	STEVE VO Right.
	01:47:12	JEFF HOXIE VO So.
	01:47:13	STEVE VO That's where I ponder.
	01:47:14	JEFF HOXIE VO So we should just give you like an outlet you can plug in your <inaudible> right at the toilet?
	01:47:18	KIM OC Yes.
	01:47:18	STEVE OC I could work with that.
	01:47:20	KIM OC Have his TV in there, whatever.

	01:47:37	JEFF HOXIE VO Oh, yeah. Just full of it.

		And we've got the opposite. We are in a basement in the city.
	01:47:41	JEFF HOXIE VO Dark and dingy.
	01:47:42	DAVE VO/OC Right. So I think we can throw some daylight bulbs in the cans that we're putting up.
	01:47:46	JEFF HOXIE VO Yeah.
	01:47:46	DAVE OC Really just blind them when you go in there. This feature is not for daylight. This is a starry night effect. We're bringing the stars down into the urban cabin. It'll be a good mood setter.
	01:48:00	JEFF HOXIE VO This will be cool.
	01:48:00	DAVE OC Mike and Melissa will love it.
	01:48:01	JEFF HOXIE OC So how are you going to do that?
	01:48:02	DAVE VO/OC Okay. We're going to put some timbers up, little square basically. And then we're going to put half inch drywall up in there and it's going to rest on a ledge. Then we've got all these guys which are fiber optic cables. This is our main.
	01:48:15	JEFF HOXIE OC That's your brains.
	01:48:16	DAVE OC This is our source for light.

	01:48:17	JEFF HOXIE OC That's your source of light. And it travels through.
	01:48:19	DAVE OC Put some LED's in there. It goes through.
	01:48:21	JEFF HOXIE VO And then punch a bunch of holes. Stick through all your cables. You can do your own pattern. You could do.
	01:48:27	DAVE OC You could do whatever you want. Now.
	01:48:28	JEFF HOXIE OC/VO Just get them through and then come through and snip them so they're all the same height.
	01:48:31	DAVE VO After you paint.
	01:48:32	JEFF HOXIE VO After it's painted. They're locked in the hole. They can't move.
	01:48:35	DAVE OC You got it. So that's, I mean, the smallest drill bit I could find is a 16 which is a little too big for these singles. You can fit two in here.
	01:48:42	JEFF HOXIE OC Okay.
	01:48:43	DAVE OC/VO And when we get to the actual drywall, we'll drill some bigger holes, too.
	01:48:49	JEFF HOXIE VO And do.

	01:48:50	JEFF HOXIE VO More than one cable.
	01:48:50	DAVE VO Clusters.
	01:48:52	JEFF HOXIE VO You can do the whole galaxy, Dave. Anybody can do this, Dave, because obviously you're doing it.
	01:48:57	DAVE VO That's true, Hoxie.
	01:48:58	JEFF HOXIE VO/OC It just takes a little time and a little patience. So let's go see what it looks like in the dark before I leave.
	01:49:03	DAVE VO Is it nice and dark out here?
	01:49:04	JEFF HOXIE VO It should be.
	01:49:05	DAVE VO It is.
	01:49:05	JEFF HOXIE VO Is the door shut? Good. But I'm needing a little less light, Dave. It's pretty wild. These are sweet, Dave.
	01:49:16	DAVE VO Yeah, I mean I think we should do clusters of five, too, because that I mean those are the big <inaudible>.

		Oh, yeah. It's got to be a good random variation.
	01:49:21	DAVE VO We can start with the Northern Light possibly. You know what better than that.
	01:49:24	JEFF HOXIE VO The North Star, you mean?
	01:49:26	DAVE VO Yes.
	01:49:27	JEFF HOXIE VO Not the Northern Light.
