ÚKOL 18. 11.

TERMÍN ODEVZDÁNÍ: ÚT 25. 11.

Tvorba letáku a odznaku/placky

V programu Inkscape nebo CorelDraw vytvořte jednoduchý letáček formátu A3 nebo A2 zvoucí na vzdělávací akci knihovny. Letáček by měl obsahovat textová pole, pozadí a obrázek či symbol. Uložte jej ve formátu SVG (nebo CDR) a PNG a oba soubory zde nahrajte. Zároveň udělejte printscreen tvorby v programu a též jej odevzdejte. Druhou variantou je vytvořit plakát od začátku, ale vylepšit vybraný plakát (vybrané prvky ponechat, jiné zlepšit a přidat) - odevzdané soubory pak budou obsahovat obě verze (původní a opravenou).

1 DOKONČEN | 20 NEDOKONČENO

Ve stejném programu vytvořte odznak do Moodleu nebo placku (badge). Odznak by měl vyjadřovat odměnu za splnění kurzu/modulu, placka by měla být propagačním předmětem (lákat do knihovny, propagovat čtení). Odznak by měl mít umístěn text na křivku (viz obrázek), placka mít text na křivce nemusí, ale měla by zachovat průměr doporučený pro tvorbu (<http://www.placka.cz/grafika-a-sablony>).

Ponechávám vám volnost v tvorbě, ale myslíte stále na základní pravidla tvorby grafických materiálů.

In March one of our staff designers enhanced the reality of his Washington, D.C., neighborhood. Smart phone applications (apps) added layers of information to what he saw—called out in this composite of five photos, each taken with his phone.

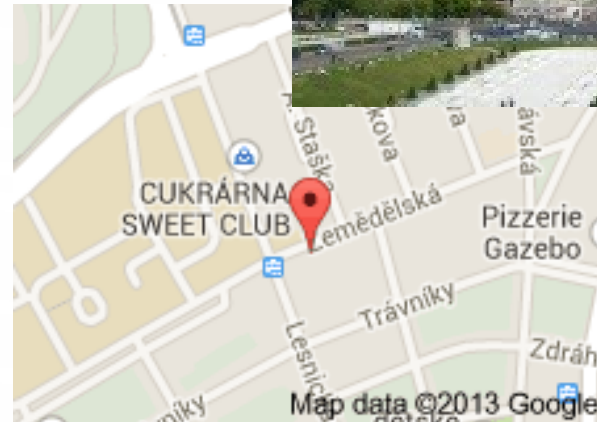

UP AND AWAY Point your phone at the sky and find stars hidden by daylight. Aim at a tourist spot and see its history plus info for visitors. For an augmented-reality check, tap into crime stats.

REAL DEALS Various apps can steer you to the cheapest gas around, mass-transit options, good food, and Wi-Fi spots. You can also learn the price of that town house that's up for sale.

STREET PALS The Tweeps Around app tells if tweeters are near. Flickr displays area photos by members (Eastern Market, above). In the works: an app to match faces to social-network profiles.
