

Peaky fuckin Blinders

Its crime drama and the main audience is in my opinion people between 18 and 25 so mainly students on univesities or high school. Purpose is pure entertainment. I´ve made this conclusions based on facts: 1. Its criminal because lot of fights, blood, guns, killing and action = everything what belongs to this genra 2. Young people are interested in this because of content, really good actors and the whole background kinda dirty mafia gang shitty smelly England. Thats what attract young people, I think. 3. It has no educational basis and the whole story is just for filling leisure time

I love it because of camera and actors. Thomas Shelby the main character is the most sexy man on the world! The whole surrounding and actors is what I really appreciate on this show. On the other hand the plot is sometimes overwhelming for me. Its filled up with gunshots and fights and the story stucks. But just in some moments of the show. I decided for watching this based on reviews and recommendations from my friends.

Peaky Blinders hasnt end yet soo Im still watching and im faaar behind the latest serie. Im watching it when I have time and Im not really obsesed with it. Its all about the doing nnothing and just relax during watching. I chose this way because I dont have a lot of time :D
