Mary-NOM watered garden-ACC

(4) Agent-like roles (INITIATORS)

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition

John opened the door.

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition
John opened the door.
- ▶ Causer: brings about the event, unintended, can be inanimate

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition
John opened the door.
- ▶ Causer: brings about the event, unintended, can be inanimate
The wind opened the door.

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition
John opened the door.
- ▶ Causer: brings about the event, unintended, can be inanimate
The wind opened the door.
- ▶ Instrument: brings about the event, under the control of an agent, can be inanimate

(4) Agent-like roles (INITIATORS)

- ▶ Agent: brings about an event, animate, sense of purpose, volition
John opened the door.
- ▶ Causer: brings about the event, unintended, can be inanimate
The wind opened the door.
- ▶ Instrument: brings about the event, under the control of an agent, can be inanimate
The key opened the door.

- (5) a. Marušk-a rozlila mléko (Agent)
Mary-NOM spilled milk

- (5) a. Marušk-**a** rozlila mléko (Agent)
Mary-NOM spilled milk
- b. Marušč-**e** se rozlilo mléko (Causer)
Mary-DAT REFL spilled milk

Direct causation in the linguistic coding and individuation of causal events

Phillip Wolff  

Causal chain

Linguistic expression

Sara caused the door to open.
Sara opened the door.

Sara caused the door to open.
*Sara opened the door.

(6) Patient-like roles (UNDERGOERS)

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.
- ▶ Patient: undergoes a change of some internal property

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.
- ▶ Patient: undergoes a change of some internal property
The wind cooled **the soup**.

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.
- ▶ Patient: undergoes a change of some internal property
The wind cooled **the soup**.
- ▶ Effected objects: change of existence

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.
- ▶ Patient: undergoes a change of some internal property
The wind cooled **the soup**.
- ▶ Effected objects: change of existence
Bill wrote **the letter**.

(6) Patient-like roles (UNDERGOERS)

- ▶ Theme: undergoes a change of location
John pushed **the chair**.
- ▶ Patient: undergoes a change of some internal property
The wind cooled **the soup**.
- ▶ Effected objects: change of existence
Bill wrote **the letter**.
