Some basic ideas

- (1) Japanese (Takamine 2010: 55,57)
- a. Taro-ga tomodach-**ni** hon-o ageta.
Taro-NOM friend-DAT book-ACC gave
'Taro gave a book to his friend.' Recipient
 - b. Kodomotachi-wa futatu-no kooen-**ni** itta.
children-TOP two.cl-GEN park-ALL went
'The children went to two parks.' Goal
 - c. Akiyama & Akiyama (2002: 51)
Ginza-wa Tokyo-**ni** arimasu.
Ginza-TOP Tokyo-LOC is
'Ginza is in Tokyo.' Location

(2) Pite Saami (Wilbur 2014: 86-7,90)

- a. vadda Jåssjå-**j** aj
give.IMP Josh-DAT too
'Give (one) to Josh, too!' Recipient
- b. da vuodja bijla-jn Ornvika-**j**
now drive.3PL car.COM Ornvika-ALL
'Now one drives to Ornvika by car.' Goal
- c. vágge-**n** Sálvo-jåhkkå =l
valley-LOC Sálvo-creek.NOM.SG is
'Sálvo Creek is in the valley.' Location

(3) Chol (Vázquez Álvarez 2011: 281-2)

- a. mi k-mäñ-∅ ts'ak **cha'añ** k-papaj
IMPF 1ST-buy-3RD medicin for my-father
'I buy medicin for my father.' Recipient
- b. tyi majliy-o' **tyi** Jolsibakil
PERF go-3.PL PREP Jolsibakil
'They went to Jolsibakil.' Goal
- c. käläx=ix kixtyañuj **tyi** Mexikuj
many=already people PREP Mexico
'Many people are in Mexico' Location

(4) The syncretism patterns summed up

	DATIVE	ALLATIVE	LOCATIVE
Japanese			
Pite Saami			
Chol			
NOT ATTESTED	A	B	A

(5) Macedonian allative: DAT-LOC-N

- a. Mu go dal podarokot **na** sina i
him.textscdat it.ACC gave present.DEF DAT son her
'He gave the present to her son.' (Tomič 2006: p.78)
Recipient
- b. Odam **na kaj** parkot.
I-go DAT LOC park
'I am going to the park.' (Pantcheva 2011: 36) Goal
- c. **Kaj** parkot sum.
LOC park.DEF am
'I am at the park.' (Pantcheva 2011: 36) Location

- (6) Malayalam allative: N-LOC-DAT (Asher & Kumari 1997: 107,113)
- a. Hanipha eni-**kkə** ii pustakan tannu
Hanifa I-DAT this book gave
'Hanifa gave me this book.' Recipient
 - b. kilihal kuntt-**il-eekkə** parannu pookunnu
birds nest-LOC-DAT fly-PP goPRES
'The birds fly to their nests.' Goal
 - c. Viitt-**il** aarokke unṭə
house-LOC who all be-PRES
'Who are there at home?' Location

(7) Meaning decomposition

- a. DAT = [DAT]
- b. ALL = [LOC, DAT]
- c. LOC = [LOC]

(7) Meaning decomposition

- a. DAT = [DAT]
- b. ALL = [LOC, DAT]
- c. LOC = [LOC]

(8) The syncretism patterns to be derived

	DATIVE [B]	ALLATIVE [A,B]	LOCATIVE [A]
Japanese			-ni
Pite Saami		-j	-n
Chol	cha'añ		tyi
NOT ATTESTED	A	B	A

(9) $ni \Leftrightarrow [\text{LOC}, \text{DAT}]$

(10) The syncretism patterns to be derived

	DATIVE [DAT]	ALLATIVE [LOC,DAT]	LOCATIVE [LOC]
Japanese			- <i>ni</i>
Pite Saami		- <i>j</i>	- <i>n</i>
Chol	<i>cha'añ</i>		<i>tyi</i>
NOT ATTESTED	A	B	A

(11) $-n$ wins in competition (it is more specific)

	DATIVE [DAT]	ALLATIVE [LOC,DAT]	LOCATIVE [LOC]
$-n \Leftrightarrow [K \text{ LOC}]$			
$-j \Leftrightarrow [K \text{ LOC,DAT}]$			
AFTER COMPETITION	$-j$	$-j$	$-n$

- (12) *cha'añ* wins in competition (it is more specific)

	DATIVE [DAT]	ALLATIVE [LOC,DAT]	LOCATIVE [LOC]
<i>cha'añ</i> $\Leftrightarrow [K \text{ DAT}]$			
<i>tyi</i> $\Leftrightarrow [K \text{ LOC,DAT}]$			
AFTER COMPETITION	<i>cha'añ</i>	<i>tyi</i>	<i>tyi</i>

- a. metr zabor-**a**
meter.NOM fence-GEN.SG
'a meter of fence'
- b. dva zabor-**a**
two.NOM fence-GEN.SG
'two fences'

Russian masculine nouns

(61) Russian, nominative (S. Toldova, p.c.)

- a. metr zabor-**a**
meter.NOM fence-GEN.SG
'a meter of fence'
- b. dva zabor-**a**
two.NOM fence-GEN.SG
'two fences'
- c. zabor-**y**
fence-NOM.PL
'fences'

Russian masculine nouns

(62) Russian, nominative (S. Toldova, p.c.)

- a. metr zabor-**a**
meter.NOM fence-GEN.SG
'a meter of fence'
- b. dva zabor-**a**
two.NOM fence-GEN.SG
'two fences'
- c. zabor-**y**
fence-NOM.PL
'fences'

Russian masculine nouns

(63) Russian, instrumental (S. Toldova, p.c.)

- a. s metr-om zabor-**a**
with meter-INS fence-GEN
'with a meter of fence'

Russian masculine nouns

(63) Russian, instrumental (S. Toldova, p.c.)

- a. s metr-om zabor-**a**
with meter-INS fence-GEN
'with a meter of fence'
- b. s dv-umja zabor-**ami**
with two-INS fence-INS.PL
'with two fences'

Russian masculine nouns

(63) Russian, instrumental (S. Toldova, p.c.)

- a. s metr-om zabor-**a**
with meter-INS fence-GEN
'with a meter of fence'
- b. s dv-umja zabor-**ami**
with two-INS fence-INS.PL
'with two fences'
- c. s zabor-**ami**
with fence-INS.PL
'with fences'

Russian masculine nouns

(64) Russian, instrumental (S. Toldova, p.c.)

- a. s metr-om zabor-**a**
with meter-INS fence-GEN
'with a meter of fence'
- b. s dv-umja zabor-**ami**
with two-INS fence-INS.PL
'with two fences'
- c. s zabor-**ami**
with fence-INS.PL
'with fences'

The position of Number

(99) Turkish-style language: [+/- minimal]

- $\llbracket +\text{minimal} \rrbracket = \lambda P. \lambda x. P(x) \neg \exists y P(y) y \sqsubset x$
- $\llbracket -\text{minimal} \rrbracket = \lambda P. \lambda x. P(x) \exists y P(y) y \sqsubset x$

(100) $\llbracket \text{NP} \rrbracket = \{ a, b, c, ab, ac, bc, abc \}$

- $\llbracket +\text{minimal} \rrbracket (\llbracket \text{NP} \rrbracket) = \{ a, b, c \}$
- $\llbracket -\text{minimal} \rrbracket (\llbracket \text{NP} \rrbracket) = \{ ab, ac, bc, abc \}$

(101) a. $\llbracket \text{two} \rrbracket (\llbracket +\text{minimal NP} \rrbracket) = —$

- $\llbracket \text{two} \rrbracket (\llbracket -\text{minimal NP} \rrbracket) = \{ ab, ac, bc \}$

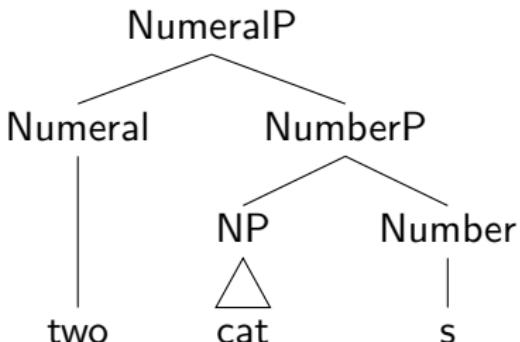

The position of Number

- (102) yoho ya ndo Ø mí=n-jödö
two PL man REL 3.IMP=MED-brothers
'two men who were brothers' (Hnonho Otomi –
Oto-Manguean)

The position of Number

- (102) yoho ya ndo Ø mí=n-jödö
two PL man REL 3.IMP=MED-brothers
'two men who were brothers' (Hnonho Otomi –
Oto-Manguean)
- (103) keb' ke'q nim-a tz'i'
two PL big-aff dog
'two big dogs' (Sipakapense Maya – Mayan)

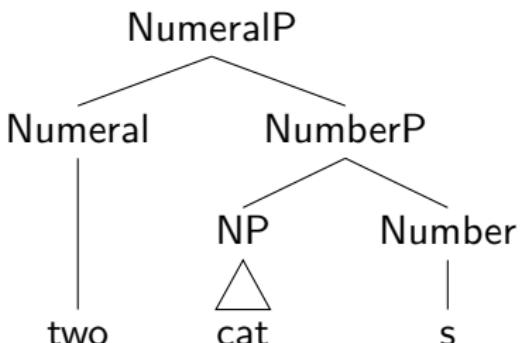

Points of concern

(104) English-style language: [+/- atomic]

- a. $\llbracket +\text{atomic} \rrbracket = \lambda P. \lambda x. P(x) \ \& \ \text{atom}(x)$
- b. $\llbracket -\text{atomic} \rrbracket = \lambda P. \lambda x. P(x) \ \& \ \neg \text{atom}(x)$

Points of concern

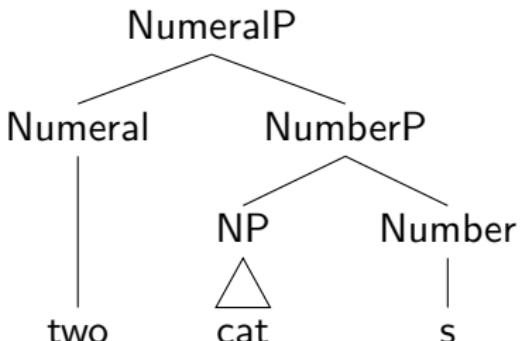

(104) English-style language: [+/- atomic]

- $\llbracket +\text{atomic} \rrbracket = \lambda P. \lambda x. P(x) \ \& \ \text{atom}(x)$
- $\llbracket -\text{atomic} \rrbracket = \lambda P. \lambda x. P(x) \ \& \ \neg \text{atom}(x)$

(105) $\llbracket \text{NP} \rrbracket = \{ \text{a}, \text{b}, \text{c}, \text{ab}, \text{ac}, \text{bc}, \text{abc} \}$

Points of concern
