This is actually just an AI generated picture of the Pope. I must admit that I actually fell for that hehe.

## 2. Slender man

Slender Man is a fictional entity created on the Something Awful online forums for a 2009 Photoshop paranormal image contest. The Slender Man myths were later expanded by other people, who created fan fiction and artistic depictions of the entity.

In 2014, two 12 years old girls actually believed the „Slender man“ exists and they reportedly claimed that they wished to commit a murder as a first step to becoming proxies for the Slender Man, having read about it online.

In 2012 they held down and stabbed a 12-year-old classmate 19 times.

During their interviews, Geyser was described as feeling no empathy while Weier was described as feeling guilty for stabbing the victim, but both felt that the attack was needed to appease Slender Man.

They were sentenced to 25 and 040 years of

mental hospital on the grounds of insanity.

### 3. Hurricane shark
