

Pts	TCA, respiration, photosynthesis	Note
20		
	Describe the citric acid cycle – formulas, names, enzymes!	
	Describe the CO <sub>2</sub> fixation and Ru5P regeneration during dark reactions of photosynthesis!	
15		
	Describe the respiratory electron transfer chain – components, importance!	
	Describe the mechanisms of ATP formation in oxidative or photosynthetic phosphorylation!	
	Describe the photosynthetic electron transport – components, importance!
