

Pts	Special syntheses and functions	Note
20	Heme synthesis, important metabolites	
15	Describe the saturation curve of hemoglobin, explain!	
	Describe haemoglobin S, what it causes?	
	Describe the functional hemoglobin molecule, formula of the heme!	
	Describe fetal hemoglobin, importance!	
10	Describe the biochemical pathway of N ₂ reduction!	
	Describe the immunoglobulin structure, function!	
	Describe the cytochrome P450, reactions, functions, importance!
